Credits: director, Saul Metzstein; writers, John Paul Chapple, Steve Attridge; novel (No one thinks of Greenland), John Griesemer.
Cast: Jason Biggs, Natascha McElhone, Jeremy Northam, Michael Ironside.
Summary: Black comedy set in Greenland in 1979 with touches of the absurdism of *M*A*S*H* and *Catch-22*. At a top secret base, the U.S. Army warehouses mangled casualties of the Vietnam War until they finally die. The men were all part of a unit in Vietnam led by the current base commander Lane Woolwrap (Northam) and were all officially declared dead in 1973.
