Important Points

- You only need to perform a synchronization if you have contacts in your local Lotus Notes address book.
- If you only use Lotus iNotes (email through the portal) you do not need to perform a synchronization.
- You must perform the synchronization before the day of your scheduled email migration.
- If you have personal groups created in your contacts, they cannot be migrated to Outlook.
Determining what version of Lotus Notes you’re using

1. Open Lotus Notes, and go to your Inbox.
2. On the top toolbar, choose “Help” and then “About Notes...”/“About IBM Lotus Notes”. See the following examples; your version will look like one of the following images.

3. On window that appears next, you will be able to determine which version of Lotus Notes you are using. Please refer to the examples below.
To Synchronize your Contacts/Address Book in Lotus Notes 7x

1. Open Lotus Notes, and go to your Inbox.

2. Click on “Actions” at the top of the window, and then choose “Synchronize Address Book”.
3. Click “OK” if prompted with a message similar to the following:

![Synchronizing: Contacts](image)

4. When synchronization is complete, you will receive a message similar to the following, however your message will include real numbers instead of zeroes:

![Domino Web Access Synchronization](image)

**Congratulations, you have successfully synchronized your contacts!**
To Synchronize your Contacts/Address Book in Lotus Notes 8x

1. Open Lotus Notes.

2. Click “Open” on the top-left corner of the screen, and then choose “Contacts” from the list.
3. Within your Contacts screen, choose “More”, and then “Preferences”.

4. Ensure that the box is checked next to “Enable ‘Synchronize Contacts’ on the Replicator”. Then click “OK”.

5. Click “Open” on the top-left corner of the screen, and then choose “Replication” from the list.
6. On the Replication screen, ensure the box for Enabled is checked next to “Synchronize Contacts”.

![Replication Screen]

7. Click the button titled “Start Now”.

![Start Now Button]

8. As your address book is synchronizing, you will see an image similar to the one below in the bottom left corner of your screen.

![Synchronization Progress]

9. When your address book is done synchronizing, you will see the following message in the bottom left corner of your screen.

![Replication Status]

Congratulations, you have successfully synchronized your contacts!
