Enlightenment Unit

Grade Level: 9-12

Unit Background:
The Enlightenment is one of the most influential time periods in the history of this world. It could be said that it is the doorway into modern history. This unit is a basic look at the Enlightenment. During the course of this unit students will learn not only why the Enlightenment developed out of absolute rule by divine kings and powerful popes but also what the basic ideals of Enlightenment thinkers were. This unit will conclude by looking at America and how the Enlightenment affected the creation of a new nation. To truly understand the Enlightenment’s influence, educators may wish to choose a person from history to draw their student’s focus into the subject of the Enlightenment and the American Revolution as has been done here by highlighting Benjamin Franklin.

Enlightenment Unit Objectives:
Students will:
- Discover the basis behind the “new science” of the 16th and 17th centuries.
- Learn basic Enlightenment ideals as set forth by John Locke, Jean-Jacques Rousseau, Montesquieu and Voltaire.
- Apply their knowledge of the Enlightenment to the life of Benjamin Franklin and compare his actions with the ideals of the Enlightenment.
- Read the Declaration of Independence and pinpoint the Enlightenment influences in that document.

Unit Time:
This lesson will take three block periods.

Lesson 1: The Scientific Revolution and the Enlightenment

Background:
After years of authoritarian rulers and the absolute rule of the Christian church, the 1500’s saw the birth of new and radical thought. First Martin Luther and his Reformation turned Europe on its head. In his wake, the next generations of thinkers in Europe would ask the dreaded question, “Why?” Christianity would be abandoned in the pursuit of the answers to all the “why’s”. This new period of history, called the Enlightenment, would shape not only modern European thought but also American thought as well.

Materials:
- Textbook reading on the Scientific Revolution and the Enlightenment
- Power Point on the Enlightenment

Lead-In to the Lesson:
Students will read the section in the textbook on the Scientific Revolution and the Enlightenment for homework.

Lesson and Activities:
1. **Warm-up:** Why do you think the church and divine right kings had absolute power in Europe?
2. Discussion on why “Why” was bad for absolute rulers and the Church.

Lesson 3: Benjamin Franklin “An Enlightened Historical Figure”

Background:
Benjamin Franklin is one of the most well known of American’s historic figures. Children in elementary school learn about him as scientist and inventor. Middle school children discover his role as founding father of the United States of America. High school students grapple with Mr. Franklin’s theories and writings. By the end of their public school careers, students know that Ben Franklin’s life was multi-faceted. What many students do not discover is the inspiration for the many hats Benjamin Franklin wore. The Enlightenment ideas of the 17th and 18th centuries influenced many American’s, Benjamin Franklin included. It is safe to say that the Enlightenment shaped the United States in its earliest conception.

Objectives:
Students will be able to:
- Apply their knowledge of the Enlightenment to the life of Benjamin Franklin and compare his actions with the ideals of the Enlightenment.
