LA SALLE UNIVERSITY

2026

ANNUAL SECURITY & FIRE SAFETY REPORT

Department of Public Safety & Emergency Management

Philadelphia, Pennsylvania

Safety • Transparency • Compliance • Community Partnership

Message from Public Safety Leadership

On behalf of the Department of Public Safety & Emergency Management, I am pleased to present **La Salle University's 2026 Annual Security and Fire Safety Report.**

The safety and well-being of our students, faculty, staff, and visitors are among the University's highest priorities. Maintaining a safe campus requires a collaborative effort involving Public Safety, University departments, students, employees, and our local public safety partners. Each member of our community plays an important role in promoting safety, preparedness, and shared responsibility.

This report is published annually in accordance with the **Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act)**, as amended by the **Violence Against Women Act (VAWA).** It provides information concerning campus crime statistics, security policies, emergency preparedness, crime prevention, fire safety, reporting options, and resources available to members of the University community.

La Salle University's commitment to campus safety extends beyond regulatory compliance. We continually evaluate our policies, procedures, training, technology, and emergency preparedness efforts to strengthen our ability to prevent, prepare for, respond to, and recover from incidents affecting our community.

I encourage you to become familiar with the information and resources contained in this report and to promptly report crimes, suspicious activity, emergencies, and other safety concerns. Through awareness, preparedness, and community partnership, we can all contribute to maintaining a safe and welcoming environment in which to learn, live, work, and visit.

Thank you for your continued partnership in helping make La Salle University a safe place.

Sincerely,

Donté Holland
Interim Director, Public Safety & Emergency Management

Tamarkius A. Roby, M.S.
Compliance & Investigations | Chair, Clery Compliance Committee

Compliance Statement

As a recipient of federal Title IV student financial assistance, **La Salle University** complies with the **Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act)**, as amended by the **Violence Against Women Act (VAWA)** and implemented through regulations issued by the **U.S. Department of Education (34 CFR § 668.46)**. The University also complies with all applicable federal and Commonwealth of Pennsylvania laws governing campus safety, emergency preparedness, and fire safety reporting.

La Salle University publishes this Annual Security and Fire Safety Report annually on or before **October 1**. The report includes three calendar years of Clery Act crime statistics and on-campus student housing fire statistics; required campus security and fire safety policy statements; crime-reporting procedures; Timely Warning and Emergency Notification procedures; crime prevention and security awareness information; policies concerning sexual assault, dating violence, domestic violence, and stalking; and other disclosures required by applicable federal law.

The University annually notifies current students and employees of the report's availability and provides notice to prospective students and employees through applicable admissions and employment processes. Printed copies are available upon request through the Department of Public Safety & Emergency Management and other designated University offices.

Pennsylvania Security Information Compliance & Complaints

La Salle University is responsible for complying with the Pennsylvania College and University Security Information Act and applicable regulations contained in **22 Pa. Code Chapter 33**, in addition to its obligations under the federal Clery Act.

A student, employee, applicant, or other individual who believes that La Salle University has not complied with applicable Pennsylvania campus security information requirements may submit a complaint to the University for review and resolution.

Complaints concerning compliance with Pennsylvania campus security information requirements should be submitted to:

Mr. Tamarkius A. Roby, M.S.
Designated Campus Security Information Compliance Official

Department of Public Safety & Emergency Management
St. Mutien Hall | 1825 Lindley Avenue
Philadelphia, PA 19141

215-951-1300 | publicsafety@lasalle.edu

The University will review the complaint, obtain information necessary to evaluate the concern, and communicate the resolution to the complaining party.

Upon resolution of the complaint, if the complaining party continues to believe that the Pennsylvania College and University Security Information Act or applicable regulations are being violated, the individual may file a complaint with:

Pennsylvania Office of Attorney General
16th Floor, Strawberry Square
Harrisburg, PA 17120
717-787-3391

Additional information about the Pennsylvania Office of Attorney General is available through the Office's official website.

PENNSYLVANIA SECURITY COMPLIANCE CONCERN?
STEP 1 — SUBMIT THE CONCERN TO LA SALLE UNIVERSITY Contact the designated campus compliance official.
STEP 2 — UNIVERSITY REVIEW AND RESOLUTION La Salle reviews the concern and communicates the resolution.
STEP 3 — ADDITIONAL STATE REVIEW If the complainant continues to believe Pennsylvania law is being violated after University resolution, a complaint may be submitted to the Pennsylvania Office of Attorney General.

This process concerns compliance with Pennsylvania campus security-information requirements and is separate from crime reporting, Title IX, student conduct, or employee grievance procedures.

About the Clery Act

The **Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act)** requires institutions participating in federal student-aid programs to publish an annual security report containing specified campus safety policies and crime statistics. Institutions with on-campus student housing must also publish required fire safety information and fire statistics.

Clery statistics are based on federal offense definitions and specific geographic categories. They are not a count of every incident reported to the University or occurring in the surrounding community.

Understanding Clery Geography

- **On Campus** -property owned or controlled by La Salle University within the same reasonably contiguous geographic area and used in direct support of, or related to, the University's educational purposes.
- **On-Campus Student Housing** - a subset of On Campus consisting of qualifying student residential facilities.
- **Non-Campus Buildings or Property** - qualifying property owned or controlled by the University, or by an officially recognized student organization, that meets the federal definition.
- **Public Property** - qualifying public property immediately adjacent to and accessible from the University's campus.

This report also contains applicable Pennsylvania campus security information disclosures and the University's Annual Fire Safety Report.

What the Clery Act Does— and Does Not—Require

The Clery Act is designed to provide transparency regarding campus safety; however, it is important to understand both the scope and the limitations of the law.

THE CLERY ACT REQUIRES	THE CLERY ACT DOES NOT
• **Annual publication of campus crime and fire statistics**	Guarantee that crime will not occur on a college campus
• **Public disclosure of campus security policies**	Rank institutions based on campus safety
• **Timely Warnings and Emergency Notifications when required**	Replace local law enforcement investigations
• **Annual publication of the Annual Security and Fire Safety Report**	Require institutions to report crimes that occur outside Clery Geography unless otherwise required by law
• **Public Daily Crime and Fire Logs**	Eliminate the need for individuals to promptly report crimes or emergencies

La Salle University's Commitment to Transparency

La Salle University views Clery Act compliance as more than a federal reporting obligation. The University is committed to maintaining a culture of transparency by providing accurate and timely information regarding campus safety, encouraging the reporting of crimes and emergencies, and continually reviewing policies, procedures, and safety programs to strengthen the security and well-being of the campus community.

While this report satisfies the University's legal reporting obligations under the Clery Act, it also serves as a practical resource intended to help members of the University community better understand campus safety resources, reporting options, emergency procedures, and the shared responsibility we all have in fostering a safe and welcoming learning environment.

How This Report Was Prepared

The Department of Public Safety & Emergency Management coordinates preparation of this report in collaboration with the Clery Compliance Committee, Campus Security Authorities, and University offices responsible for student affairs, Title IX, residence life, student conduct, human resources, facilities, enrollment, athletics, communications, and related institutional functions.

Crime statistics are compiled from reports received by Public Safety, Campus Security Authorities, applicable University offices, and local law-enforcement agencies. Prior to publication, responsible offices review assigned content, verify current policies and resources, and identify necessary updates.

Clery compliance is a year-round responsibility. The University maintains the Daily Crime Log and Fire Log, collects and classifies reportable incidents, trains Campus Security Authorities, reviews campus geography and policies, and evaluates required Timely Warnings and Emergency Notifications throughout the year.

About La Salle University

Founded in **1863**, La Salle University is a private, Lasallian Catholic university located in Philadelphia, Pennsylvania. Sponsored by the **Institute of the Brothers of the Christian Schools**, the University has provided a transformative educational experience for more than 160 years by preparing students to become ethical leaders, engaged citizens, and lifelong learners. Guided by its Lasallian heritage, La Salle is committed to academic excellence, service, social justice, and educating the whole person.

University Mission Statement

La Salle is a Lasallian Catholic university committed to the principle that all knowledge is practical and empowering, filled with the capacity to transform lives. Anchored in the living tradition of the Brothers of the Christian Schools and in association with a diverse and inclusive learning community, our mission is to educate the whole person by fostering a rigorous free search for truth. La Salle, in affirming the value of both liberal arts and professional studies, prepares students for the lifelong pursuit and exploration of wisdom, knowledge, and faith that lead to engaged and fulfilling lives marked by a commitment to the common good.

Overview of Department of Public Safety & Emergency Management

The La Salle University Department of Public Safety & Emergency Management provides comprehensive public safety, emergency management, security, parking, and transportation services in support of the University's educational mission. Public Safety personnel operate 24 hours a day and provide patrol services, emergency response, investigations, crime prevention, safety assistance, security technology support, and emergency management coordination.

The Department works collaboratively with University departments and external public safety agencies to protect life and property, identify and reduce safety risks, support emergency preparedness, and provide professional and responsive service to students, faculty, staff, and visitors.

Public Safety provides 24-hour coverage through personnel assigned to campus safety operations, supervision, investigations and compliance, access and security support, parking and transportation, and related public safety functions.

PUBLIC SAFETY HEADQUARTERS

St. Mutien Hall | 1825 Lindley Avenue | Philadelphia, PA 19141

EMERGENCY: 215-991-2111

GENERAL / NON-EMERGENCY: 215-951-1300

EMAIL: publicsafety@lasalle.edu

Core Responsibilities

The Department of Public Safety & Emergency Management provides integrated operational, transportation, security, investigative, and compliance services in support of the La Salle University community.

SERVICE AREA	PRIMARY RESPONSIBILITIES
Patrol & Response	24-hour patrol, emergency response, calls for service, building checks, security inspections, crime prevention, and visible campus safety presence.
Shuttle Services	Provides transportation for students, employees, and authorized guests along designated routes.
Parking Operations	Administers parking permits, enforces parking regulations, and supports traffic, visitor, and special-event parking operations.
Access Control	Manages electronic building access, credentials, access permissions, and associated security hardware.
Investigations	Conducts administrative and policy-related investigations and coordinates with University offices and law enforcement when appropriate.
Compliance & Clery	Coordinates Clery Act compliance, crime classification, the Daily Crime Log, CSA training, and related campus safety reporting.

These service areas work together to support daily campus operations, emergency response, regulatory compliance, and the safety and security of the University community.

Campus Safety Technology

La Salle University uses multiple technology systems to support campus safety, emergency communications, incident management, security, and regulatory compliance.

TECHNOLOGY	PURPOSE
ARMS Records Management System	Incident reporting, records management, case documentation, and Clery crime classification.
ARMS Parking	Parking permit administration and parking enforcement.
La Salle Guardian	Mobile safety application supporting emergency communication, safety resources, and virtual safety services.
Emergency Notification System	Supports distribution of Emergency Notifications and Timely Warnings.
Electronic Access Control	Manages electronic credentials and controlled access to University facilities.
Video Surveillance (CCTV)	Supports campus security monitoring, incident review, and investigations.

Technology supports operational response and situational awareness; authorized use remains governed by University policy, assigned responsibilities, and role-based permissions.

Public Safety Authority & Jurisdiction

La Salle University Public Safety personnel derive their authority from University policy and administrative authority. Public Safety personnel enforce University rules and regulations, respond to incidents occurring on University-owned or controlled property, and may initiate appropriate administrative action when violations are identified.

Public Safety personnel are not sworn municipal police officers and do not possess the general arrest authority granted to municipal law enforcement officers under Pennsylvania law. When an incident requires police enforcement or arrest authority, Public Safety coordinates with the Philadelphia Police Department or other appropriate law enforcement agency.

Nothing in this section limits Public Safety personnel from taking reasonable action within the scope of their authority to protect life, preserve evidence, maintain order, secure an incident scene, or address an immediate safety concern while awaiting law enforcement or other emergency responders.

Law Enforcement & Public Safety Partnerships

The Department of Public Safety & Emergency Management maintains a close working relationship with the **Philadelphia Police Department (PPD)**, Philadelphia Fire Department, Emergency Medical Services and other local, state, and federal public safety agencies as appropriate.

Although Public Safety personnel frequently serve as the University's initial campus responders, incidents requiring municipal police, fire, emergency medical, or other specialized public safety authority are referred to or coordinated with the appropriate agency. Public Safety may assist responding agencies by securing scenes, providing information, identifying witnesses, facilitating access to University property, supporting investigations, and coordinating University resources.

These relationships support criminal investigations, emergency response, major events, threat assessment, missing-person investigations, traffic and crowd management, and other matters affecting the safety of the University community.

Criminal Investigations

Public Safety investigates reported incidents involving potential violations of University policy and, when appropriate, suspected criminal activity occurring within the University's jurisdiction. Investigations may involve interviews, evidence collection and review, threat assessment, documentation, case management, and coordination with appropriate University offices or external law enforcement agencies.

Investigative information may be shared with the Philadelphia Police Department, Student Conduct, Human Resources, the Title IX Coordinator, or other University officials when appropriate and consistent with applicable law and University policy.

Campus Security Authorities

The Clery Act recognizes that members of a campus community may report crimes to individuals other than Public Safety or local law enforcement. To ensure that these reports are included in the University's campus safety records and statistical disclosures, certain employees and officials are designated as **Campus Security Authorities (CSAs)**.

A Campus Security Authority is an individual or organization with responsibility for campus security or significant responsibility for student and campus activities. CSAs serve as an important part of La Salle University's crime-reporting framework by forwarding good-faith reports of Clery Act crimes to the Department of Public Safety & Emergency Management.

The designation of an individual as a CSA is based on the person's institutional responsibilities—not solely on job title.

Who May Be a Campus Security Authority?

Campus Security Authorities generally fall into one or more of the following categories:

- A campus police or public safety department.
- Individuals who have responsibility for campus security but are not members of the Public Safety Department.
- Individuals or offices identified by University policy as locations where students and employees should report crimes.
- Officials who have significant responsibility for student and campus activities, including student housing, student conduct, athletics, and student organizations.

At La Salle University, positions that may be designated as CSAs include:

- Department of Public Safety & Emergency Management personnel.
- Security Desk Receptionists, including applicable student employees.
- Professional and student staff within Residence Life and Housing Operations.
- Student Development and Campus Life personnel with significant student-related responsibilities.
- Athletic coaches, athletic trainers, and professional Athletics staff.
- Academic advisors.
- Advisors to student clubs and recognized student organizations.
- Other employees or officials whose duties include significant responsibility for campus security or student activities.

Responsibilities of a Campus Security Authority

A CSA who receives a good-faith report of a possible Clery Act crime must promptly forward the available information to the Department of Public Safety & Emergency Management.

A CSA SHOULD	A CSA IS NOT REQUIRED TO
✓ Receive the report	✕ Investigate the allegation
✓ Document available information	✕ Determine whether a crime occurred
✓ Promptly forward the report	✕ Locate an alleged offender
✓ Report good-faith allegations	✕ Determine criminal charges
✓ Identify immediate safety concerns	✕ Make the final Clery classification
✓ Provide known incident information	✕ Make the final geography determination

IMPORTANT
A report does not need to be investigated or substantiated before it is forwarded to Public Safety. Good-faith reports should be submitted even when limited information is available.

IMMEDIATE THREAT OR EMERGENCY

Address immediate safety needs first. CSA documentation follows the emergency response.

1. **Call 9-1-1** for emergency police, fire, or medical assistance.
2. **Notify La Salle Public Safety:** 215-991-2111.
3. **Provide the nature and location of the emergency.**
4. **Complete the applicable CSA report** after immediate safety needs have been addressed.

Reports involving a serious or continuing threat should be communicated to Public Safety immediately for evaluation of applicable campus safety notifications.

Confidentiality and Campus Security Authorities

Most CSAs cannot promise confidentiality because the University may need certain information to satisfy federal reporting, safety, and response obligations. However, a CSA should respect the privacy of the reporting party and share information only with officials who have a legitimate institutional need to know.

A reporting party may decline to provide identifying information. When that occurs, the CSA should still report all available non-identifying information, so the incident can be evaluated for Clery statistical reporting and campus safety purposes.

Professional counselors and pastoral counselors are generally not considered CSAs when they are acting within the scope of their recognized counseling or pastoral responsibilities. Other employees identified by the University as confidential resources may also have distinct privacy and reporting obligations. An employee who holds more than one institutional role is confidential only while acting within the scope of the role that carries that protection.

CSA Training and Annual Notification

Designated CSAs receive training and guidance concerning Clery-reportable crimes, VAWA offenses, Clery geography, reporting procedures, Timely Warning and Emergency Notification considerations, confidentiality and privacy, and their responsibility to promptly report good-faith allegations. CSAs are also expected to respond to annual requests for previously unreported incidents, including confirming when no additional reportable allegations were received during the applicable reporting period.

How CSAs Submit a Report

Emergency / Immediate Threat	Non-Emergency CSA Report
9-1-1 → Public Safety 215-991-2111	**University Incident Reporting Portal**

Reporting to a CSA does not limit an individual's ability to separately contact Public Safety, law enforcement, medical services, or other University resources.

Reporting Crimes, Emergencies & Safety Concerns

La Salle University encourages students, employees, visitors, and community members to promptly report crimes, suspicious activity, and other safety concerns. Individuals do not need to determine whether reported conduct legally constitutes a crime or a Clery Act offense before making a report. Public Safety will evaluate the information provided and determine the appropriate institutional response.

Reports should be made even when the reporting party is uncertain whether the conduct constitutes a crime, does not know the identity of the alleged offender, has limited information, does not wish to pursue criminal charges or a University disciplinary process, or wishes to remain anonymous when an anonymous reporting option is available.

Emergency Reporting

For an immediate threat to life, serious injury, fire, crime in progress, medical emergency, or other urgent danger, **call 9-1-1 immediately**. After contacting 9-1-1, notify La Salle Public Safety so University personnel can assist responding agencies, facilitate access, secure the surrounding area, and coordinate University resources.

EMERGENCY CONTACT	METHOD
Police / Fire / EMS	**9-1-1**
La Salle Public Safety — Emergency	**215-991-2111**
La Salle Public Safety — General / Non-Emergency	**215-951-1300**
La Salle Guardian	Call or chat through the mobile application
Campus Emergency Phones	Yellow emergency, blue-light, or elevator emergency phones

WHEN REPORTING, BE PREPARED TO PROVIDE
✓ Exact location of the incident or emergency
✓ Nature of the incident
✓ Whether the incident is occurring now
✓ Known injuries, weapons, fire, or other hazards
✓ Descriptions of involved persons, vehicles, and direction of travel
✓ Any information that may affect responder safety

Do not delay an emergency report because some information is unknown. Provide what you know and follow the dispatcher's instructions.

WHILE HELP IS RESPONDING
When safe to do so, remain available to the dispatcher, follow instructions, provide updated information if circumstances change, preserve potential evidence, and assist responders in locating the scene. **Do not confront or pursue a suspected offender.**

IMPORTANT
Email and online reporting forms are not emergency services and should not be used when an immediate response is required.

Suspicious Activity

Suspicious activity may include attempted unauthorized entry into secured facilities; unusual activity around residence halls, vehicles, offices, or restricted areas; threatening conduct; suspicious or abandoned packages; damaged or manipulated doors, locks, or security equipment; or other behavior that reasonably raises a safety concern.

IMPORTANT
Community members should not place themselves in danger by attempting to investigate suspicious activity. Observe from a safe location and contact Public Safety.

Reporting to the Department of Public Safety & Emergency Management

The Department of Public Safety & Emergency Management accepts reports 24 hours a day, 365 days a year. Depending on the circumstances, community members may report an incident by telephone, in person, through the La Salle Guardian mobile application, through campus emergency phones, or through designated University online reporting mechanisms for non-emergency matters.

What Happens After You Make a Report?

When Public Safety receives a report, personnel evaluate the available information and determine the appropriate response. Depending on the circumstances, Public Safety may dispatch personnel; request police, fire, or emergency medical assistance; secure the scene and preserve evidence; conduct an initial investigation; notify appropriate University officials; provide referrals and support resources; document the incident; and evaluate applicable Daily Crime Log, Clery statistical reporting, Timely Warning, or Emergency Notification requirements.

Each report is evaluated based on the available information, the circumstances presented, applicable law, and University policy.

ASSISTANCE IS AVAILABLE
Public Safety can help individuals understand reporting options, contact law enforcement or emergency medical services, access University support resources, and connect with appropriate offices such as Title IX, Student Conduct, Human Resources, or other University resources when applicable.

Reporting to Local Law Enforcement

La Salle University recognizes an individual's right to report suspected criminal activity directly to local law enforcement. Members of the University community may contact the **Philadelphia Police Department (PPD)** at any time to report a crime, request police assistance, or seek information concerning the criminal justice process.

Reporting an incident to La Salle Public Safety does not prevent an individual from also making a report to local law enforcement. Likewise, an individual may contact law enforcement without first reporting the incident to the University.

Emergency Police Assistance

For crimes in progress, immediate threats to safety, or emergencies requiring police, fire, or emergency medical assistance, call 9-1-1.

When the emergency occurs on University property, also notify La Salle Public Safety at **215-991-2111** as soon as it is safe to do so. Public Safety can assist responding agencies with campus access, provide relevant information, secure the surrounding area, and coordinate University resources.

Non-Emergency Police Reporting

Individuals who wish to make a non-emergency criminal report may contact the Philadelphia Police Department directly.

PHILADELPHIA POLICE DEPARTMENT	CONTACT INFORMATION
35th Police District	5960 North Broad Street, Philadelphia, PA 19141 · **215-686-3350**
14th Police District	43 West Haines Street, Philadelphia, PA 19144 · **215-686-3140**

Depending on the nature or location of an incident, another Philadelphia Police Department district or specialized investigative unit may assume responsibility.

Assistance in Contacting Law Enforcement

Upon request, La Salle Public Safety will assist students, employees, and other members of the University community in contacting the appropriate law enforcement agency. Public Safety may facilitate communication with responding officers, help identify the appropriate agency or investigative unit, preserve available information or evidence, and coordinate University resources and support services.

An individual's preferences regarding participation in a criminal investigation will be respected t**o the extent permitted by law and University policy.** Circumstances involving an immediate threat to the community or other legal obligations, however, may require the University to notify law enforcement or take other appropriate action.

University & Criminal Justice Processes

A University process and a criminal justice process serve different purposes and may proceed at the same time.

UNIVERSITY PROCESS	CRIMINAL JUSTICE PROCESS
• Addresses University policy and institutional responsibilities	• Addresses potential violations of criminal law
• May involve Public Safety, Title IX, Student Conduct, HR, or other University offices	• May involve PPD and other criminal justice authorities
• University administrative process	• Criminal justice process
• May occur at the same time as a criminal investigation	• May occur at the same time as a University process

Reporting Crimes Occurring Away from Campus

Crimes occurring away from University property should generally be reported to the law enforcement agency with jurisdiction over the location where the incident occurred.

Members of the La Salle community are also encouraged to notify Public Safety when an off-campus incident may affect the safety of the University community. This information may assist the University in providing resources, assessing potential threats, coordinating with the responsible law enforcement agency, determining whether the location is within the University's Clery geography, and evaluating whether a Timely Warning or other campus safety communication may be required.

IMPORTANT REPORTING REMINDER
Reporting to La Salle Public Safety and reporting to the Philadelphia Police Department are not the same thing. Individuals may report to either or both. **For an immediate emergency, always call 9-1-1 first.**

Online and Anonymous Reporting

La Salle University provides reporting options for individuals who wish to share information concerning crimes, misconduct, safety concerns, or other matters through designated University reporting mechanisms. Online reporting options are intended to supplement—not replace—emergency reporting to Public Safety or 9-1-1.

Individuals may submit information anonymously when an applicable reporting mechanism permits anonymous reporting. The University will review and respond to anonymous reports based on the information available; however, anonymity may limit the University's ability to investigate, obtain additional information, provide individualized support, or take certain responsive actions.

NOT FOR EMERGENCIES
Online and anonymous reporting mechanisms are not emergency services. **For an immediate threat or emergency, call 9-1-1 and notify La Salle Public Safety at 215-991-2111.**

Online Reporting

The University maintains designated online reporting mechanisms for certain non-emergency incidents and concerns. Depending on the nature of the report, information submitted through these mechanisms may be routed to Public Safety, Title IX, Student Conduct, Human Resources, or another appropriate University office.

Online reporting mechanisms should be used in accordance with their stated purpose. Individuals should provide as much information as they are comfortable providing to assist the University in evaluating and responding to the reported concern.

Anonymous Reporting

When an applicable reporting mechanism permits it, an individual may submit a report without providing identifying information. Anonymous reports are reviewed based on the information available and may still result in safety measures, documentation, referrals, or other appropriate University action.

Providing specific information—such as the date, time, location, nature of the incident, persons involved, witnesses, and other relevant circumstances—can assist the University in evaluating an anonymous report.

Anonymous reporting does not prevent information from being considered for Clery Act purposes. When a report contains sufficient information and otherwise meets applicable requirements, it may be evaluated for inclusion in the University's crime statistics, Daily Crime Log, or campus safety notification processes, as appropriate.

Understanding Your Reporting Options

IDENTIFIED REPORT	ANONYMOUS REPORT	CONFIDENTIAL COMMUNICATION
The reporting individual's identity is known to the receiving office.	The reporting individual's identity is not provided.	Information is shared with a University resource that has a legally or professionally recognized confidential role.
Allows follow-up questions and direct communication.	Follow-up may be limited if no contact method is provided.	Information generally is not disclosed without permission except as required or permitted by law.
May support investigation, safety measures, referrals, and institutional action.	The University responds based on the information available.	Primarily provides confidential support, guidance, or care.
May be evaluated for applicable Clery reporting requirements.	May still be evaluated for applicable Clery reporting requirements.	Clery treatment depends on the role of the confidential resource and applicable federal requirements.

Anonymous reporting and confidential communication are not the same. An anonymous report does not identify the reporting individual, but the information provided may still be shared with University officials who need the information to evaluate or respond to the concern. Confidential communications are made to designated resources whose ability to disclose information is limited by law, professional obligations, or University policy.

Confidential Reporting & Confidential Resources

Some members of the University community may wish to seek assistance without making a report to Public Safety, law enforcement, or another University office responsible for responding to misconduct. La Salle University identifies certain resources that may provide confidential support consistent with applicable law, professional obligations, and University policy.

Confidential resources can help individuals understand available options, obtain support, and consider whether they wish to make a report or pursue additional services. Speaking with a confidential resource generally does not, by itself, constitute a report to the University for purposes of initiating an institutional response.

University offices that are not confidential resources generally share information only with personnel who need the information to perform their responsibilities, consistent with applicable law and University policy. This is commonly described as privacy and is different from confidentiality.

Professional and Pastoral Counselors

Consistent with applicable Clery Act requirements, professional counselors and pastoral counselors are not considered Campus Security Authorities when they are acting within the scope of their professional counseling or pastoral responsibilities.

La Salle University encourages professional and pastoral counselors, when they determine it is appropriate and consistent with their professional responsibilities, to inform individuals they counsel of available procedures for voluntarily reporting crimes for inclusion in the University's annual Clery crime statistics.

A person may seek confidential counseling or pastoral support without being required to make a criminal complaint or initiate a University disciplinary process. When an individual wishes to make a separate report, confidential resources may provide information about available University and law-enforcement reporting options.

Individuals seeking confidential support should confirm the scope and limits of confidentiality with the resource they contact because confidentiality may be subject to applicable legal, ethical, or professional requirements.

Confidential University Resources

CONFIDENTIAL RESOURCE	SERVICES / SUPPORT	CONTACT
Sexual Misconduct Advocacy & Education	Victim/survivor advocacy and support, resource information, accommodations/protections, and reporting assistance.	Maggie Szeder 215-951-1176 szeder@lasalle.edu
Student Counseling Center	Confidential counseling, crisis intervention, psychiatric consultation, outreach, and referrals.	215-951-1355 studentcounseling@lasalle.edu
After-Hours Counseling	After-hours tele-counseling when the Student Counseling Center is closed, including weekends and holidays.	215-951-1355 Select option #2
Student Health Center	Confidential health care, consultation, preventative care, and referrals for eligible students.	215-951-1565 studenthealth@lasalle.edu
Pastoral / Spiritual Support	Confidential pastoral or spiritual support when provided by designated confidential personnel acting within that role.	University Ministry, Service & Support 215-951-1976
Employee Assistance Program	Confidential employee assistance, counseling, support, and referral resources for eligible employees.	1-800-854-1446, for employees

Note: Confidentiality may depend on the individual's role and the circumstances in which information is shared. Individuals may ask for a resource to explain the scope and limits of confidentiality before disclosing identifying information.

Limits of Confidentiality

Confidentiality is not absolute. A confidential resource may be required or permitted to disclose information in limited circumstances established by law or professional obligations, which may include situations involving an imminent threat of serious harm, suspected abuse or neglect of a minor or other protected person, or other circumstances in which disclosure is legally required.

ASK BEFORE YOU SHARE
If confidentiality is important to you, ask the resource to explain whether they are confidential and any limits that may apply before providing identifying information.

Confidential Resources & Clery Reporting

Information disclosed to a confidential resource may be treated differently for Clery Act reporting purposes depending on the individual's role and the circumstances in which the information is received. La Salle University applies applicable federal requirements when determining whether information must be included in Clery crime statistics or other required disclosures.

Individuals do not have to decide at the outset whether to pursue every available reporting or response option. A person may seek confidential support, obtain medical care, make a University report, contact law enforcement, or pursue a combination of available options, as applicable.

When appropriate, confidential resources may inform individuals about procedures for making a voluntary report for Clery statistical purposes without requiring the individual to pursue criminal prosecution or a University disciplinary process.

Reporting When Criminal Prosecution Is Not Requested

La Salle University encourages individuals to report crimes and safety concerns even when they do not wish to pursue criminal charges or participate in a criminal investigation. A decision not to pursue criminal prosecution does not prevent an individual from reporting an incident to Public Safety, seeking medical care or supportive resources, or accessing other available University services.

When a report is received, Public Safety may document the incident and take appropriate action consistent with applicable law and University policy. Depending on the circumstances, information may also be evaluated for inclusion in Clery crime statistics, the Daily Crime Log, or other required disclosures and may be considered when determining whether a Timely Warning or Emergency Notification is required.

The University will respect an individual's preferences regarding law enforcement involvement to the extent permitted by law and University policy. However, circumstances involving an immediate threat to health or safety, suspected abuse or neglect, a legal reporting obligation, or another significant community safety concern may require the University to take action or share information with appropriate authorities.

Coordination with Other Law Enforcement Agencies

La Salle University may receive information from local, state, or other law enforcement agencies concerning crimes reported on or near University property or at locations associated with the University. Public Safety reviews relevant information obtained from these agencies to determine whether an incident falls within the University's Clery geography and whether it is subject to applicable Clery Act requirements, including inclusion in annual crime statistics, the Daily Crime Log, or consideration for a Timely Warning or Emergency Notification, as applicable.

As part of the University's Clery Act compliance process, La Salle may also request crime information from law enforcement agencies with jurisdiction over the University's Clery geography to identify incidents that may have been reported directly to those agencies rather than to University officials.

Daily Crime Log

The La Salle University Department of Public Safety & Emergency Management maintains a Daily Crime Log to provide the University community and the public with timely information regarding crimes reported to the Department.

The Daily Crime Log is maintained in accordance with the Jeanne Clery Campus Safety Act and includes crimes reported to Public Safety that occur within the geographic areas applicable to the crime-log requirement, including areas within the Department's patrol jurisdiction.

The Daily Crime Log is separate from the crime statistics published annually in this report. The crime log includes crimes reported to Public Safety within the applicable crime-log geography and is not limited to offenses that are ultimately included in the University's annual Clery crime statistics.

WHAT THE DAILY CRIME LOG INCLUDES

For each crime reported to the Department, the Daily Crime Log includes, when known:

- ✓ **Nature of the crime**
- ✓ **Date and time the crime occurred**
- ✓ **General location of the crime**
- ✓ **Date the crime was reported to Public Safety**
- ✓ **Disposition of the complaint, if known**

Entries are maintained in a manner consistent with applicable law and Clery Act requirements concerning victim confidentiality.

When Information Is Added to the Log

Information required for the Daily Crime Log is entered within two business days of the report to Public Safety unless disclosure is prohibited by law, would jeopardize the confidentiality of the victim, or information is temporarily withheld under circumstances permitted by the Clery Act.

Entry into the log does not depend upon completion of a criminal or administrative investigation. When additional information becomes available, the Department may update an existing entry to reflect changes in the classification or disposition of the incident.

Disposition Updates

The disposition reflects the known status of an incident at the time the log is reviewed or updated. Examples may include Open Investigation, Closed, Referred to another University office or law enforcement agency, Arrest, Unfounded, or No Further Action.

A disposition may change as additional information becomes available.

LIMITED EXCEPTION

Information may be temporarily withheld from the Daily Crime Log only when there is clear and convincing evidence that disclosure would jeopardize an ongoing criminal investigation or the safety of an individual, cause a suspect to flee or evade detection, or result in the destruction of evidence.

Withheld information will be disclosed once the potential adverse effect is no longer likely to occur.

Availability of the Daily Crime Log

ACCESS PERIOD	AVAILABILITY
Most Recent 60 Days	Available for public inspection during normal business hours
Records Older Than 60 Days	Available within two business days of a request for public inspection

PUBLIC ACCESS
Access to the Daily Crime Log does not require an individual to demonstrate a particular purpose or affiliation with La Salle University.

DAILY CRIME LOG LOCATION

Department of Public Safety & Emergency Management
St. Mutien Hall
1825 Lindley Avenue
Philadelphia, PA 19141

Daily Crime Log vs. Annual Clery Crime Statistics

The Daily Crime Log and annual Clery crime statistics serve different purposes and are governed by different reporting criteria. As a result, the number of incidents appearing in the Daily Crime Log should not be expected to match the number of crimes reported in the University's annual Clery crime statistics.

DAILY CRIME LOG	ANNUAL CLERY CRIME STATISTICS
Includes crimes reported to Public Safety within the applicable crime-log geography	Includes specified Clery-reportable crimes that meet applicable offense and geographic requirements
Updated throughout the year	Published annually
Required information is entered within two business days of the report, subject to permitted exceptions	Reports statistics for the three calendar years required by the Clery Act
May include crimes that are not Clery-reportable offenses for annual statistical purposes	Includes only offenses required for statistical disclosure under the Clery Act
Includes the disposition of the complaint, if known	Reports aggregate statistical totals rather than individual case dispositions
Designed to provide timely public information about reported crimes	Designed to provide standardized annual crime data for specified Clery categories and geography

Accordingly, the number of incidents appearing in the Daily Crime Log should not be expected to match the number of crimes appearing in the statistical tables contained in this report.

Classification and Updates

Daily Crime Log entries reflect the information reasonably available to Public Safety at the time an incident is reported and recorded. As additional information becomes available through investigation or review, the classification or disposition of an incident may be updated. An update to a Daily Crime Log entry does not necessarily mean that the original report was inaccurate. Rather, it may reflect additional facts, clarification of the circumstances, or a subsequent determination regarding the nature or status of the incident.

Reporting Behavioral and Safety Concerns

Members of the University community are encouraged to report behavior, communications, or circumstances that create a reasonable concern for the safety or well-being of an individual or the community. Reports may involve threatening behavior, significant changes in behavior, concerning communications, potential self-harm or harm to others, or other safety-related concerns.

For an immediate threat or emergency, **call 9-1-1 and La Salle Public Safety at 215-991-2111**. Non-emergency safety concerns may be reported to Public Safety at **215-951-1300** or through the appropriate University reporting channel. The receiving office will coordinate with appropriate University resources based on the nature of the concern.

Concerns that a student may be missing should be reported promptly to Public Safety. The University's full Missing Student Notification Procedure appears later in this report.

Campus Alerts & Emergency Communications

La Salle University uses Timely Warnings and Emergency Notifications to provide safety information to students and employees when applicable federal criteria are met. The type, timing, audience, and content of a communication depend on the facts known at the time and the nature of the threat or emergency.

Timely Warnings

La Salle University considers a Timely Warning when a Clery-reportable crime is reported to a Campus Security Authority or local law enforcement, occurred within the University's Clery geography, and is considered to represent a serious or continuing threat to students or employees.

The University evaluates the totality of the circumstances, including the nature and severity of the crime, location and timing, whether the alleged offender is known or apprehended, whether similar incidents indicate a pattern, the population potentially affected, and information provided by law enforcement. A report of a Clery crime does not automatically result in a Timely Warning.

When a warning is required, the University issues it as soon as pertinent information is available. A warning may describe the nature and general location of the crime, relevant safety information, and appropriate protective measures. Personally identifying information about victims is not included. Distribution may occur through University email, text messaging, La Salle Guardian, University webpages, or other appropriate communication methods.

A Timely Warning may not be required when the available information does not establish a serious or continuing threat, the crime occurred outside applicable Clery geography, or another federal exception applies. La Salle documents Timely Warning determinations in accordance with its compliance procedures.

Emergency Notifications

La Salle University will issue an Emergency Notification upon confirmation of a significant emergency or dangerous situation occurring on campus that involves an immediate threat to the health or safety of students or employees.

Upon confirmation, the University will, without delay, determine the appropriate segment or segments of the campus community to notify, determine the content of the notification, and initiate the emergency notification system unless issuing the notification would compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Department of Public Safety & Emergency Management and designated University officials identified in University emergency procedures are responsible for confirming emergencies, determining the affected population and message content, and initiating or implementing emergency communications. External police, fire, emergency medical, weather, or emergency-management authorities may assist the University in confirming conditions and developing protective information.

Emergency Notifications may be brief initially and may be supplemented as additional reliable information becomes available. Notifications may identify the nature and location of the emergency, the area or population affected, and protective actions such as evacuation, sheltering in place, avoiding an area, or securing in place. Updates or an all-clear may be issued when appropriate.

Emergency Response & Evacuation Procedures

La Salle University maintains emergency response and evacuation procedures for significant emergencies and dangerous situations. Members of the University community should follow official University communications and directions from Public Safety, law enforcement, fire personnel, emergency medical personnel, or other authorized responders.

Depending on the incident, protective actions may include evacuation, shelter in place, securing in place, avoiding an affected area, or other measures appropriate to the circumstances. Evacuees should use a safe exit, proceed to a safe location as directed, remain clear of emergency-response areas, and not re-enter until authorized. Specific response plans, tactical procedures, and internal deployment protocols are maintained separately from this public report.

Individuals who may require additional assistance during an emergency should follow official instructions and, when assistance cannot safely be provided, communicate their location and needs to Public Safety, 9-1-1, or responding emergency personnel.

Emergency Tests, Drills & Exercises

La Salle University tests its emergency response and evacuation procedures on at least an annual basis. Tests may be announced or unannounced and may include drills, tabletop exercises, functional exercises, or other appropriate activities.

The University documents each test, including a description of the exercise, the date, time, and whether it was announced or unannounced, and publicizes its emergency response and evacuation procedures in

conjunction with at least one test each calendar year. After-action review may be used to identify lessons learned and opportunities for improvement.

Emergency Communication Methods

Depending on the circumstances, the University may communicate through text messaging, University email, La Salle Guardian, University webpages, telephone or public-address systems, in-person instructions, and other available communication methods. Community members are responsible for maintaining current contact information in University systems and following official emergency instructions.

Crime Prevention & Security Awareness Programs

La Salle University provides crime prevention and security awareness programming designed to inform students and employees about campus security procedures and practices, promote awareness of available safety resources, and encourage shared responsibility for personal and community safety.

Programs may be coordinated by the Department of Public Safety & Emergency Management in collaboration with other University departments and community partners. Programming is provided through orientation, training, presentations, outreach activities, campus events, digital communications, and other educational initiatives throughout the academic year.

Security Awareness Programs

The following table summarizes representative security-awareness and crime-prevention programs offered by La Salle University. Program availability and scheduling may vary based on operational needs, audience, and identified safety concerns.

Program / Activity	Primary Audience	Type / Purpose
New Student Orientation — Public Safety	New students	Campus safety resources, crime awareness, emergency reporting and prevention
Parent / Family Orientation	Parents and families	Public Safety services, crime awareness and prevention
Campus Security Authority Training	Designated CSAs	Clery responsibilities, crime reporting and institutional procedures
Residence Life / Student Staff Safety Training	RAs and applicable student staff	Crime prevention, reporting and campus safety resources
Public Safety Outreach / "Spilling the Tea with Public Safety"	Students	Informal safety Q&A, reporting resources and community engagement
Lighting & Grounds Safety Review	Students, Public Safety and Facilities	Identification of environmental safety/security concerns
Behavior Identification / Active-Threat Preparedness	Students and employees	Recognition, reporting and response to concerning or threatening behavior
Street / Personal Safety Programming	Students and employees	Situational awareness, risk recognition and crime prevention
Department-Specific Safety Programs	University departments and groups	Customized safety, crime prevention, emergency preparedness or reporting topics
Safety Communications & Crime Prevention Information	Students and employees	Seasonal concerns, crime trends, reporting reminders and prevention information

Ongoing Security Awareness & Program Frequency

Crime prevention and security awareness are continuing activities and are not limited to formal training sessions. Throughout the year, La Salle University may provide safety information in response to seasonal risks, emerging concerns, crime trends, special events, or other campus conditions.

Information may be communicated through University and Public Safety communications, training and presentations, webpages and digital platforms, safety bulletins, residence hall programming, campus events, signage, printed materials, and other appropriate communication methods.

Requesting a Crime Prevention or Safety Program

University departments, student organizations, residence halls, and other campus groups may request crime-prevention or safety programming from the Department of Public Safety & Emergency Management.

> **Contact Public Safety**
> General/Non-Emergency: **215-951-1300**
> Email: publicsafety@lasalle.edu

Crime prevention and security awareness programming is intended to provide members of the University community with information, resources, and options that may assist them in making informed safety decisions. These programs do not place responsibility for criminal conduct on victims.

Personal Safety & Crime Prevention Practices

Crime-prevention information is intended to provide options and resources that may help community members make informed safety decisions; responsibility for misconduct always rests with the person who commits it.

Students and employees are encouraged to promptly report crimes, suspicious activity, lost or compromised University credentials, damaged security equipment, and unsafe conditions; secure residence hall rooms, offices, vehicles, and personal property; use established access-control procedures; remain aware of their surroundings; and contact Public Safety when safety assistance is needed.

Security of and Access to Campus Facilities

Academic and administrative facilities are generally accessible during established operating hours and may be restricted outside normal hours based on University operations, security needs, special events, closures, or other circumstances. Residence halls are limited to residents, authorized guests, and individuals with a legitimate University purpose, subject to applicable housing and access procedures.

The University uses physical and electronic access controls, locks, identification credentials, surveillance and alarm technology, Public Safety patrols, and other measures appropriate to particular facilities. Access privileges may be modified or deactivated when authorization changes, or a credential is reported lost or compromised.

La Salle considers security in the maintenance of campus facilities and grounds. Public Safety, Facilities Management, and other responsible departments may identify and address conditions such as malfunctioning lighting, damaged locks or doors, access-control failures, vegetation affecting visibility, emergency-communication equipment deficiencies, or other physical conditions affecting safety or security. Urgent conditions should be reported to Public Safety; routine maintenance concerns should be reported through the University's Facilities Management process.

Visitors, contractors, vendors, and guests are expected to comply with applicable University access requirements. Temporary access, parking, traffic, or security measures may be established for special events, construction, emergencies, significant gatherings, or University closures.

Transportation, Shuttle & Safety Services

University shuttle services operate along designated routes and service areas, with schedules and availability based on academic and operational needs. Students and employees who have concerns about safely traveling on or around campus may contact Public Safety for information regarding available safety assistance.

Monitoring and Reporting Criminal Activity at Off-Campus Locations

La Salle University encourages students and employees to promptly report criminal activity occurring away from campus to the law enforcement agency having jurisdiction over the location of the incident.

When criminal activity occurring away from the University's campus may have implications for the safety of the La Salle community, the Department of Public Safety & Emergency Management may coordinate with the appropriate law-enforcement agency to obtain relevant information, evaluate potential safety concerns, and determine whether University action or communication is appropriate.

Off-Campus Locations of Recognized Student Organizations

La Salle University monitors and obtains information, as appropriate, through local law-enforcement agencies concerning reported criminal activity involving students at off-campus locations associated with student organizations officially recognized by the University, including any qualifying off-campus housing facilities.

When the University identifies an off-campus location that is owned or controlled by an officially recognized student organization, the Department of Public Safety & Emergency Management evaluates the location to determine whether it meets the Clery Act definition of **Non-Campus Buildings or Property**. When applicable, the University requests crime information from the law-enforcement agency having jurisdiction over that location for purposes of Clery Act statistical reporting and other required campus-safety review.

Members of the University community are encouraged to notify Public Safety of off-campus criminal activity that may affect the safety of the La Salle community, even when the incident has already been reported to local law enforcement.

La Salle University identifies qualifying off-campus locations owned or controlled by officially recognized student organizations as part of its annual Clery geography review and requests applicable crime information from the law-enforcement agencies having jurisdiction over those locations.

Alcohol, Drugs & Substance Abuse Prevention

La Salle University is committed to maintaining an educational and working environment consistent with applicable federal, state, and local laws and University policies concerning alcohol and other drugs. The University addresses alcohol- and drug-related concerns through policy, education, prevention, appropriate disciplinary processes, supportive resources, and coordination with law enforcement when warranted.

Alcoholic Beverages

La Salle University requires students and employees to comply with University policies governing the possession, use, distribution, and consumption of alcoholic beverages, as well as applicable Commonwealth of Pennsylvania law.

The unlawful possession, use, manufacture, sale, or distribution of alcoholic beverages is prohibited. University policies may establish additional requirements or restrictions beyond those imposed by law.

Violations of applicable alcohol laws or University policy may result in University disciplinary action and, when appropriate, referral to law enforcement.

The University also provides educational information and supportive resources intended to promote informed decision-making and reduce alcohol-related harm.

Illegal Drugs & Controlled Substances

La Salle University prohibits the unlawful possession, use, manufacture, distribution, or sale of illegal drugs and controlled substances on University property or as part of University activities.

Students and employees are expected to comply with applicable federal and Commonwealth of Pennsylvania drug laws and University policies. Violations may result in University disciplinary action, criminal enforcement, or both.

The University recognizes that substance misuse may affect individual health, academic performance, workplace safety, and the broader University community. Educational, prevention, counseling, and referral resources are available through appropriate University offices.

Enforcement of Alcohol & Drug Laws

The Department of Public Safety & Emergency Management addresses alcohol- and drug-related violations within the scope of its authority and may refer suspected violations of criminal law to the Philadelphia Police Department or another law enforcement agency having appropriate jurisdiction.

Student conduct that may violate University policy may also be referred to the Office of Student Conduct or another appropriate University office. Matters involving employees may be referred to Human Resources or other responsible University officials.

University administrative processes and criminal law enforcement may proceed separately when circumstances warrant.

Clery Act statistics concerning arrests and disciplinary referrals for qualifying **Liquor Law Violations, Drug Abuse Violations, and Weapons Law Violations** are published under **Clery Act Crime Statistics** in this report.

Drug & Alcohol Abuse Prevention

La Salle University provides educational information, programs, and resources intended to address alcohol and other drug use, promote informed decision-making, and connect members of the University community with appropriate assistance.

Prevention and education efforts may address:

- Health and safety risks associated with alcohol and drug use;
- Applicable laws and University policies;
- Responsible and informed decision-making;
- Substance misuse and dependency;
- Available counseling, treatment, and support resources;
- Intervention and referral options; and
- Resources available to students and employees seeking assistance.

Information concerning the University's comprehensive **Drug and Alcohol Abuse Prevention Program** and applicable institutional policies is made available to students and employees through appropriate University channels.

EDUCATION • PREVENTION • SUPPORT
Students and employees seeking information or assistance concerning alcohol or other drug use may access educational, counseling, treatment, intervention, and referral resources available through appropriate University offices.

Sexual Misconduct, Title IX & Interpersonal Violence

La Salle University is committed to maintaining an educational and working environment free from sex discrimination, sexual harassment, sexual assault, dating violence, domestic violence, stalking, and other forms of prohibited sexual misconduct.

This section summarizes policies, procedures, rights, reporting options, resources, and prevention information applicable to sexual misconduct and interpersonal violence. The summaries are intended to present the University's Clery Act and Violence Against Women Act disclosures in an accessible format. Current University policies and grievance procedures remain the controlling documents for the administration of individual matters.

University Commitment

La Salle University prohibits sexual misconduct and interpersonal violence and provides reporting options, supportive resources, prevention and awareness programming, and procedures for responding to allegations involving students and employees.

University response procedures are administered in accordance with applicable law and University policy.

Definitions & Consent

For Clery Act reporting and University response purposes, relevant terms include sexual assault, rape, fondling, incest, statutory rape, dating violence, domestic violence, stalking, consent, and incapacitation.

Definitions used for Clery statistical reporting may differ from definitions used in University student-conduct, Title IX, or employment policies. The applicable definition depends upon the purpose for which the term is being used.

Sexual Assault

Sexual assault includes offenses that meet applicable federal definitions of rape, fondling, incest, and statutory rape.

Dating Violence

Dating violence is violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. Relevant considerations include the length and type of relationship and the frequency of interaction between the persons involved.

Domestic Violence

Domestic violence includes qualifying felony or misdemeanor crimes of violence committed by persons in relationships covered by applicable federal and state law, including current or former spouses or intimate partners and other protected family or household relationships.

Stalking

Stalking involves a course of conduct directed at a specific person that would cause a reasonable person to fear for their safety or the safety of others or suffer substantial emotional distress.

Consent

Consent means words or actions freely and actively given by each party that a reasonable person would interpret as a willingness to participate in agreed-upon sexual conduct.

Consent is not present or valid when a person is incapable of giving consent because of incapacitation by alcohol or other drugs; when intimidation, threats, physical force, coercion, or fear of imminent bodily injury are involved; when a physical or mental condition prevents the person from knowingly or voluntarily giving consent; or when the person is under the applicable age of consent. Under the University's student policies, the age of consent identified for Pennsylvania is 16 years old.

Silence, non-communication, or lack of resistance does not necessarily constitute consent. A previous relationship or prior consent does not establish consent to future sexual conduct. Consent to one form of sexual activity does not establish consent to another, and consent may be withdrawn at any time.

The use of alcohol or other drugs does not excuse responsibility for obtaining consent or for determining whether another person is capable of providing consent.

Reporting & Immediate Assistance

Individuals may report sexual assault, dating violence, domestic violence, stalking, sex discrimination, or other sexual misconduct through one or more available University or law-enforcement reporting channels.

Reports may be made to:

- Department of Public Safety & Emergency Management;
- Title IX Coordinator or the University's designated Title IX reporting office;
- A Campus Security Authority;
- Philadelphia Police Department or another law-enforcement agency having jurisdiction; or
- Another University office designated to receive reports.

A person seeking assistance is not required to determine which University policy or procedure applies before making a report. The appropriate University official will evaluate the information and explain available options.

NEED HELP?
REPORTING OPTIONS

NEED	CONTACT / REPORTING OPTION
Police, Fire, or Medical Emergency	**9-1-1**
La Salle Public Safety Emergency Response	**215-991-2111**
University Title IX Coordinator	Rose Lee Pauline 215-951-1014 pauline@lasalle.edu
Deputy Title IX Coordinator for Students	Alisa Macksey 215-951-1079 macksey@lasalle.edu
Deputy Title IX Coordinator for Employees	Kristin Heasley 215-951-1497 heasley@lasalle.edu
Confidential Support	See Confidential Reporting & Confidential Resources earlier in this report

You do not need to determine which University policy applies before making a report. The appropriate University office can help explain options and next steps.

Medical Care, Evidence Preservation & Confidential Support

Individuals who experience sexual assault or interpersonal violence are encouraged to prioritize their immediate safety and medical needs.

Seeking medical attention may provide access to treatment, testing, medications, forensic evidence collection, and referrals. Seeking medical care does not, by itself, require an individual to pursue criminal charges or a University disciplinary process.

PRESERVE INFORMATION WHEN POSSIBLE
Evidence may be important for medical care, protection orders, criminal investigations, civil proceedings, or University processes. A person may seek medical or supportive assistance regardless of whether they choose to pursue a criminal or University complaint.

Depending on the circumstances, potentially relevant evidence may include:

- Clothing;
- Photographs;
- Electronic communications;
- Text messages or emails;
- Social-media content;
- Call records;
- Documents; and
- Other materials related to the incident.

Confidential support resources and the distinction among confidential, private, and anonymous reporting are described under **Confidential Reporting & Confidential Resources** earlier in this report.

SUPPORTIVE & PROTECTIVE MEASURES
Options that may help support safety and continued access to University programs and activities.

La Salle University may provide supportive or protective measures to individuals affected by sexual misconduct or interpersonal violence. Depending on circumstances and availability, measures may address:

▪ **Academic arrangements**	▪ **No-contact arrangements**
▪ **Housing arrangements**	▪ **Safety planning**
▪ **Work/Class schedule modifications**	▪ **Counseling and wellness resources**
▪ **Campus escort services**	▪ **Increased security or monitoring**
▪ **Leave of absence**	▪ **Other reasonably available measures**

PRIVACY OF SUPPORTIVE MEASURES
The University seeks to maintain the privacy of supportive measures to the extent reasonably possible while implementing them effectively.

Publicly available recordkeeping and Clery Act disclosures are completed without including personally identifying information about victims. The University also maintains the confidentiality of protective measures to the extent that doing so does not impair its ability to provide those measures.

Written Notification of Rights, Options & Available Services

When a student or employee reports to La Salle University that they have been a victim of dating violence, domestic violence, sexual assault, or stalking, the University will provide the individual with a **written explanation of their rights and options**.

Written information provided by the University will include, as applicable:

- Available **counseling, health, mental-health, and victim-advocacy services**;
- Available **legal assistance**;
- Available **visa and immigration assistance**;
- Available **student financial-aid assistance**;
- Other appropriate University and community support services;
- Options for and available assistance with changes to **academic, living, transportation, and working situations**;
- Available **protective measures**, including applicable no-contact arrangements and safety measures;
- Options regarding involvement of **campus authorities and law enforcement**, including the right to notify law enforcement, receive University assistance in doing so, or decline to notify law enforcement;
- Information concerning applicable **protection orders, restraining orders, no-contact directives, or similar lawful protections**;
- Information concerning **evidence preservation and reporting procedures**; and
- Information concerning privacy and confidentiality protections applicable to University records and protective measures.

When requested and reasonably available, La Salle University will provide appropriate academic, living, transportation, working, or protective accommodations **regardless of whether the individual chooses to report the incident to campus Public Safety or local law enforcement**.

Law Enforcement, Protection Orders & University Directives

Individuals have the right to report suspected criminal conduct to law enforcement and may request University assistance in contacting the Philadelphia Police Department or another agency having jurisdiction.

Individuals may also choose not to report to law enforcement, except when the University has an independent legal obligation to make a report.

Individuals affected by dating violence, domestic violence, sexual assault, or stalking may have options for seeking court-issued protection orders or other legal protections.

La Salle University may also issue institutional no contact directives or implement other protective measures under University policy. Members of the University community are expected to comply with legally valid protection orders and applicable University directives.

PROTECTIVE OPTIONS	
COURT-ISSUED PROTECTION ORDER	**UNIVERSITY NO-CONTACT DIRECTIVE**
Issued through the legal system.	Issued through applicable University authority and policy.

University Procedures for Sexual Misconduct & Interpersonal Violence

La Salle University maintains procedures for responding to allegations of sexual harassment, sexual assault, dating violence, domestic violence, stalking, and other forms of prohibited sexual misconduct.

The procedure that applies depends on the nature and location of the alleged conduct, the status of the respondent, the University policy implicated, and applicable legal requirements.

Student Respondents: Allegations involving student respondents that meet the requirements of the University's **Policy for Handling Title IX Complaints Against Students** are addressed through the Title IX grievance process established by that policy. Conduct involving student respondents that does not fall within the Title IX process may be addressed under the **Student Sexual Misconduct and Interpersonal Violence Policy Involving Students**, the Student Code of Conduct, or another applicable University policy.

Employee Respondents: Allegations involving employee respondents that meet the requirements of the University's **Policy for Handling Title IX Complaints Against Employees** are addressed through the Title IX grievance process established by that policy. Conduct involving employee respondents that fall outside the Title IX process may be addressed under the University's **Anti-Harassment and Non-Discrimination Policy** or other applicable employment policies.

Depending on the applicable procedure and circumstances, the University may also implement emergency removal, or, for a non-student employee respondent, administrative leave as permitted by University policy.

Applicable procedures are designed to provide a reasonably prompt and equitable process administered by appropriately trained University officials. Specific procedural requirements vary according to the controlling policy.

Rights of Complainants & Respondents

La Salle University's applicable procedures provide complainants and respondents with equitable procedural rights and opportunities consistent with applicable law and University policy.

Depending on the procedure governing the matter, these rights may include:

- Written notice of allegations and applicable procedures;
- Equal opportunities to identify witnesses and present relevant evidence;
- Access to an advisor as provided by the applicable policy;
- Opportunities to inspect and respond to evidence;
- Information concerning available supportive or protective measures;
- A determination using the **preponderance of the evidence** standard;
- Written notification of the determination and rationale as required by the applicable procedure;
- Equal opportunities to appeal on the grounds established by the controlling policy; and
- A process administered by officials without prohibited conflicts of interest or bias.

The specific procedures and rights applicable to an individual matter are determined by the controlling University policy.

Prevention, Awareness, Bystander Intervention & Risk Reduction

La Salle University provides primary prevention and awareness programming concerning sexual assault, dating violence, domestic violence, and stalking for incoming students and new employees, and provides ongoing prevention and awareness campaigns for students and employees.

These programs and campaigns include information concerning:

- The University's prohibition of dating violence, domestic violence, sexual assault, and stalking;
- Applicable definitions of dating violence, domestic violence, sexual assault, stalking, and consent;
- Safe and positive options for bystander intervention;
- Risk-reduction strategies intended to decrease perpetration and bystander inaction, increase individual and community safety, and support empowerment without placing responsibility for misconduct on victims;
- Reporting options, available support resources, and supportive or protective measures;
- Procedures the University follows when dating violence, domestic violence, sexual assault, or stalking is reported; and
- Rights and options available to complainants and respondents within applicable University disciplinary proceedings.
- Programming may be delivered through orientation, employee education, workshops, digital education, campus programming, awareness initiatives, and other University prevention activities.

Retaliation

La Salle University prohibits retaliation against individuals for making a good-faith report or complaint, participating in or assisting with an investigation or University process, refusing to participate where protected by applicable law or University policy, seeking supportive measures, or otherwise exercising rights protected by University policy or applicable law.

RETALIATION IS PROHIBITED
Concerns involving retaliation should be reported promptly through the appropriate University reporting channel.

Applicable University Policies

Detailed requirements governing Title IX, sexual misconduct, interpersonal violence, discrimination, harassment, and related grievance procedures are contained in the University's controlling policies. Depending on the circumstances and status of the respondent, applicable policies may include:

- Policy for Handling Title IX Complaints Against Students;
- Student Sexual Misconduct and Interpersonal Violence Policy Involving Students;
- Policy for Handling Title IX Complaints Against Employees;
- Anti-Harassment and Non-Discrimination Policy;
- Student Code of Conduct; and
- Other applicable University conduct, employment, nondiscrimination, or safety policies.

The applicable policy depends on the nature of the alleged conduct, the status of the parties, and other circumstances. Current University policies and procedures are the controlling documents. If a summary contained in this report differs from the applicable University policy, the current University policy governs.

Anti-Harassment & Non-Discrimination

La Salle University is committed to providing an educational, work, co-curricular, and residential environment free from harassment, discrimination, and retaliation.

The University's **Anti-Harassment and Non-Discrimination Policy Involving Employee and Other Non-Student Respondents** prohibits harassment and discrimination based on legally protected characteristics and prohibits retaliation against individuals who make a good-faith report or complaint, support a report or complaint, or provide information in connection with a University process.

The policy applies when the respondent is a University employee or an employee of a contractor, vendor, or other third-party providing services to the University. Covered complainants may include students, employees, applicants, alumni, visitors, and employees of contractors or vendors.

Conduct covered by the policy may include harassment, discrimination, sex-based harassment, sexual violence, stalking, dating violence, domestic violence, and retaliation when the applicable policy definitions are met.

Relationship to Title IX

Allegations of sex-based harassment that fall within the University's Title IX process are handled under the **Policy for Handling Title IX Complaints Against Employees**. When a matter includes both Title IX allegations and other conduct covered by the Anti-Harassment and Non-Discrimination Policy, the applicable process is determined under the University's controlling policies.

Reporting Harassment, Discrimination & Retaliation

Individuals who believe they have experienced or witnessed harassment, discrimination, or retaliation are encouraged to report the conduct as soon as reasonably possible.

Reports may be submitted through the University's **Harassment, Discrimination, & Bias-Related Incident Reporting Form**. University employees may also report concerns to their supervisor, department head, or Human Resources.

Anonymous reports may be submitted when permitted by University policy. The University may be limited in its ability to investigate or respond when an anonymous report does not contain sufficient information.

Situation	Reporting Option
University report	Harassment, Discrimination & Bias-Related Incident Reporting Form
Employee reporting option	Supervisor, Department Head, or Human Resources
Possible criminal conduct	Public Safety and/or Philadelphia Police
Immediate threat or emergency	**9-1-1 and Public Safety — 215-991-2111**

Confidential & Non-Confidential Resources

The policy distinguishes between confidential and non-confidential resources.

Only specifically designated **Confidential Resources** can provide confidentiality under the policy. Most faculty and staff are non-confidential resources and maintain information as privately as reasonably possible but may have reporting responsibilities.

Employee & Campus Security Authority Reporting Responsibilities

The University encourages employees to report harassment and discrimination. Under the policy, supervisors are required to initiate a report when they receive information about conduct that reasonably may constitute harassment or discrimination under the policy, subject to the exceptions described in the controlling policy.

Employees who are designated **Campus Security Authorities (CSAs)** must also report complaints involving Clery-reportable crimes in accordance with the University's Clery Act reporting procedures.

Students are strongly encouraged, but generally are not required by this policy, to report harassment or discrimination they become aware of. Student employees acting in the course of their employment may have employee reporting responsibilities.

Law Enforcement Reporting

Reporting conduct to the University does not prevent an individual from also reporting the matter to law enforcement.

Individuals may contact the Philadelphia Police Department directly or may contact La Salle Public Safety for assistance with making a police report. University administrative processes and criminal investigations may proceed separately.

Emergency police assistance: 9-1-1
La Salle Public Safety: 215-991-2111

Interim Measures & Support

After receiving a report or complaint, the University may implement reasonable interim measures when circumstances present a significant conduct, health, or safety concern requiring immediate intervention.

Depending on the circumstances, interim measures may include:

- Reassignment of work duties or classes;
- Administrative leave;
- No contact directives;
- Safety planning; and
- Other appropriate measures designed to support the welfare of the parties or University community.

University Resolution Process

Reports are initially reviewed to determine which University policy and process applies. Matters involving sex-based harassment covered by Title IX are addressed through the University's Title IX procedures for employee respondents. Other harassment and discrimination matters may proceed through the University's Anti-Harassment and Non-Discrimination process.

Depending on the circumstances, available resolution paths may include:

- Informal resolution, when appropriate and agreed upon;
- Referral to an Ombudsperson;
- Formal investigation; or
- Referral to another applicable University process.

Formal investigations are assigned through Human Resources. Both complainants and respondents have an equal opportunity to identify witnesses and submit relevant evidence. The policy states that investigators should be free from real or perceived conflicts of interest.

Standard of Proof, Outcomes & Sanctions

The policy uses the **preponderance of the evidence** standard, meaning that a policy violation is determined when it is more likely than not that the alleged violation occurred.

For formal investigations, the investigator prepares a written report summarizing the evidence and determination. For University employee respondents, the applicable University officials determine whether disciplinary or remedial action is warranted and provide written notice of the findings to the parties.

When a violation is established, the University may impose appropriate remedial and disciplinary action, up to and including discharge from employment, consistent with applicable University policies.

Privacy & Retaliation

The University seeks to handle reports and investigations as privately as reasonably possible. Information may be disclosed when necessary to investigate allegations, implement appropriate measures, or satisfy legal and institutional responsibilities. The University cannot guarantee complete confidentiality during an investigation.

La Salle University prohibits retaliation against individuals who make good-faith reports or complaints or who provide information in connection with a University process. Reports of retaliation may be investigated independently or in connection with the underlying matter, as appropriate.

RETALIATION IS PROHIBITED
Concerns involving retaliation should be reported promptly through the appropriate University reporting channel.

Applicable University Policies

The complete procedures, definitions, reporting requirements, resolution options, and other requirements applicable to harassment and discrimination matters are contained in the University's controlling policies. Depending on the circumstances, applicable policies may include:

- Anti-Harassment and Non-Discrimination Policy Involving Employee and Other Non-Student Respondents
- Policy for Handling Title IX Complaints Against Employees
- Anti-Harassment and Non-Discrimination Policy Involving Student Respondents
- Employee Conduct and Work Performance Policy
- Student Code of Conduct
- Other applicable University policies

Residence Life, Housing & Additional Campus Safety Policies

La Salle University provides on-campus student housing and maintains residential policies and procedures intended to promote safe, secure, and supportive living environments.

Residence Life & Housing Operations coordinates residential operations in partnership with the Department of Public Safety & Emergency Management, Facilities Management, Student Affairs, and other University offices with responsibilities affecting residential students and facilities.

Residential policies supplement the broader University policies and procedures applicable to students and members of the campus community.

Residence Hall Security & Access

Access to University residence halls is restricted to authorized residents, approved guests, University personnel, and other individuals with a legitimate reason to enter the facility.

Residence hall security measures may include electronic access-control systems, secured exterior entrances, locks, surveillance technology, security desk operations, Public Safety patrols, and other measures appropriate to the facility.

Residents are expected to comply with applicable access-control and guest procedures, protect University credentials, keep room doors secured, avoid propping secured exterior doors, and promptly report malfunctioning doors, locks, card readers, other security equipment, or suspicious activity.

Additional information regarding facility security and access-control practices is provided under **Security of and Access to Campus Facilities**.

Residence Hall Community & Safety Policies

Residents and guests are expected to comply with University housing policies addressing community conduct, guest and visitation expectations, prohibited items, facility access, fire safety, and other requirements intended to support residential safety.

Residence Life and housing policies operate in conjunction with the Student Code of Conduct and other University policies applicable to students and guests.

Policies and procedures addressing residence hall fire prevention, prohibited fire hazards, evacuation, drills, and residential fire-safety systems are summarized separately in the **Annual Fire Safety Report** contained within this report.

On -Campus Student Housing Facilities

The following facilities constitute La Salle University's on-campus student housing inventory for Clery Act and fire-safety reporting purposes.

RESIDENCE HALL
St. Albert Hall
St. Basil Court
St. Bernard Hall
St. Cassian Hall
St. Denis Hall
St. George Hall
St. Hilary Hall
St. Jerome Hall
St. Katherine Hall
St. Miguel Townhouses
St. Neumann Hall

Fire safety systems and annual fire statistics for each residential facility are presented in the Annual Fire Safety Report.

Missing Student Notification Procedure

La Salle University maintains procedures for responding to reports involving students who may be missing. **There is no requirement to wait 24 hours before making a report.** Anyone who has reason to believe that a student may be missing should promptly contact the Department of Public Safety & Emergency Management.

Public Safety Emergency: 215-991-2111
Public Safety General/ Non-Emergency: 215-951-1300

Any University official who receives a report that a student residing in on-campus student housing may be missing should immediately refer the report to the Department of Public Safety & Emergency Management for assessment and response.

Confidential Missing-Person Contact

Each student residing in on-campus student housing may identify one or more contact persons whom the University will notify if the student is determined to be missing.

Missing-person contact information is registered confidentially and is accessible only to authorized University officials. The information will not be disclosed except to law-enforcement personnel in furtherance of a missing-person investigation.

If Public Safety or the law-enforcement agency having jurisdiction determines that a residential student has been missing for 24 hours, the University will notify the student's designated missing-person contact **within 24 hours of that determination**.

Students Under 18

If a student residing in on-campus student housing is **under 18 years of age and is not emancipated**, the University will notify the student's custodial parent or guardian **within 24 hours of the determination that the student is missing**, in addition to notifying any confidential missing-person contact designated by the student.

Notification of Law Enforcement

When a student residing in on-campus student housing is determined to have been missing for 24 hours, La Salle University will notify the law-enforcement agency having jurisdiction **within 24 hours of that determination**, unless that law-enforcement agency was the entity that determined the student was missing.

University Response

A report should not be delayed while a reporting person attempts to determine whether a student meets a legal or regulatory definition of "missing." Public Safety may begin gathering information and evaluating the circumstances immediately when a concern is reported.

Information that may assist Public Safety includes the student's:

- Last known location;
- Date and time last seen or contacted;
- Physical description;
- Clothing;
- Vehicle information;
- Residence or known address;
- Travel plans;
- Recent communications; and
- Other information relevant to the student's whereabouts or safety.

A reporting person should not delay making a report while attempting to obtain all of this information.

Weapons & Other Dangerous Articles

Possession, use, storage, or carrying of firearms, weapons, explosives, or other dangerous articles on University property or at University activities is governed by University policy and applicable law.

Students, employees, visitors, and other persons on University property are expected to comply with applicable University restrictions.

A weapon or dangerous item that creates an immediate threat or safety concern should be reported immediately: **9-1-1 or La Salle Public Safety Emergency — 215-991-2111.**

Protecting Minors on Campus

La Salle University maintains a **Protecting Minors on Campus Policy** designed to promote the safety and welfare of minors who participate in University-sponsored or University-authorized programs and activities.

The policy applies, as applicable, to programs involving minors conducted on University property, in University facilities, or under the authority or direction of the University at other locations. Covered programs may include camps, academic programs, athletic activities, outreach programs, and other activities involving minors.

University employees, volunteers, program personnel, and other individuals working with minors are expected to comply with applicable University requirements concerning supervision, conduct, training, background clearances, program administration, and reporting suspected abuse or neglect.

Reporting Suspected Child Abuse

Any person who has reasonable cause to suspect that a child may be the victim of abuse should promptly report the concern in accordance with applicable Pennsylvania law and University policy.

In an emergency or when a child is in immediate danger:

Call 9-1-1, then notify **La Salle University Public Safety at 215-991-2111**.

Pennsylvania ChildLine accepts reports of suspected child abuse 24 hours a day:

ChildLine: 1-800-932-0313

Mandated reporters must make reports in accordance with the Pennsylvania Child Protective Services Law and applicable University procedures.

Sex Offender Registry & Community Notification

Information concerning registered sexual offenders in Pennsylvania is available through the **Pennsylvania State Police Megan's Law Public Website**.

The registry is maintained by the Pennsylvania State Police and provides publicly available information as authorized by Pennsylvania law.

Hazing Prevention, Reporting & Transparency Report

La Salle University does not tolerate hazing. University policy prohibits Hazing, Aggravated Hazing, and Organizational Hazing occurring on or off campus and applies to students, student organizations, and other persons associated with La Salle operating under the sanction or recognition of the University.

For purposes of University policy, hazing includes an intentional, knowing, or reckless act committed by a person, individually or with others, against another person regardless of that person's willingness to participate, when the act:

- Occurs in connection with initiation into, affiliation with, or maintenance of membership in a student organization; and
- Causes or creates a risk of physical or psychological injury above the reasonable risks ordinarily associated with participation in the University or organization.

Examples identified by University policy include physical abuse; sleep deprivation or exposure to the elements; extreme physical activity; forced or coerced consumption of food, alcohol, drugs, or other substances; forced sexual activity; threatening conduct; and activities involving violations of criminal law.

University policy also prohibits **Aggravated Hazing**, **Organizational Hazing**, and retaliation against individuals who report or participate in a student conduct process concerning hazing.

Applicable Hazing Law

La Salle University's Policy Against Hazing is administered in accordance with applicable law, including Pennsylvania's **Timothy J. Piazza Antihazing Law, 18 Pa.C.S. § 2801 et seq.**

Pennsylvania law establishes offenses and requirements relating to hazing, aggravated hazing, organizational hazing, institutional hazing, institutional enforcement and reporting, prohibited defenses, safe-harbor protections, and related remedies.

The University's policy and applicable law should be consulted for complete definitions, requirements, and potential consequences.

Report Suspected Hazing

SITUATION	REPORTING OPTION
Immediate danger / emergency	**9-1-1 and La Salle Public Safety 215-991-2111**
Non-emergency safety concern	La Salle Public Safety 215-951-1300
University hazing report	Public Safety • Residence Life/Community Development • Director of Student Conduct • Online Incident Report

Use emergency channels immediately whenever hazing presents an immediate threat to life or safety.

Institutional Response & Investigation

Reports of suspected hazing are reviewed and referred for investigation and response in accordance with University policy.

Under La Salle University's **Policy Against Hazing**:

- Alleged violations involving students or student organizations are investigated and addressed through the applicable Student Conduct process;
- Alleged violations involving employees are investigated and addressed by Human Resources; and
- Other allegations of hazing are investigated and addressed by the Department of Public Safety & Emergency Management.

Violations involving students or student organizations may also constitute violations of the Student Code of Conduct and may result in interim measures or disciplinary sanctions as permitted by University policy.

Conduct that may constitute a criminal offense may also be referred to law enforcement. University administrative proceedings and criminal investigations are separate processes and may proceed independently.

Hazing Prevention & Awareness Programs

La Salle University provides research-informed hazing prevention and awareness programming as part of its broader approach to education, intervention, and cultural change.

Under the University's **Policy Against Hazing**, designated student organizations are required to participate in hazing prevention and awareness programs. Educational resources are also made available to the broader student body.

Programs and resources may address:

- University hazing policy and applicable law;
- Recognition of behaviors that may constitute hazing;
- Reporting procedures and available reporting options;
- Bystander intervention;
- Ethical leadership; and
- Strategies for developing healthy group cohesion through positive, non-hazing practices.

Programming may be delivered through multiple formats and may be incorporated into organizational training, student education, leadership development, awareness initiatives, or other University prevention efforts.

Campus Hazing Transparency Report

La Salle University maintains public hazing disclosure information in accordance with University policy and applicable federal requirements.

The University’s **Policy Against Hazing** assigns responsibility to the Director of Student Conduct for maintaining a Bi-Annual Disclosure Report concerning hazing violations reported to the University.

University policy provides updates on **January 1 and August 1** and publication on a publicly available University website.

In addition, the federal **Campus Hazing Transparency Report** requires disclosure of qualifying findings of responsibility involving student organizations found to have violated the University's standards of conduct related to hazing.

For each qualifying hazing violation, the federal transparency report includes, as applicable:

- The name of the student organization;
- A general description of the hazing violation;
- The date of the incident; and
- Any sanctions imposed.

The Campus Hazing Transparency Report is separate from the hazing statistics published in this Annual Security and Fire Safety Report. Clery hazing statistics concern qualifying reported hazing incidents, while the transparency report concerns qualifying findings of responsibility involving student organizations.

Clery Act Crime Statistics

La Salle University publishes Clery Act crime statistics for the three most recent calendar years. Statistics include qualifying crimes occurring within the University's Clery geography that are reported to a Campus Security Authority or local law-enforcement agency.

Crime statistics reflect reports received for Clery Act reporting purposes and do not necessarily indicate that criminal charges were filed, that a person was found responsible, or that a reported offense resulted in a criminal or University disciplinary proceeding.

Crimes are generally recorded in the calendar year in which they are reported for Clery purposes. The tables are organized by required geographic category and offense type.

***On-Campus Student Housing is a subset of the On-Campus category and should not be added to the On-Campus total when calculating an overall number.**

The University's statistical methodology and reporting sources are described under **How This Report Was Prepared** earlier in this report.

Geographic Categories Used in the Tables

The crime statistics presented in this section are organized according to the Clery geographic categories described earlier in this report:

- **On Campus**
- **On-Campus Student Housing***
- **Non-Campus Buildings or Property**
- **Public Property**

On-Campus Student Housing is a subset of the On-Campus category and should not be added to the On-Campus total when calculating an overall number.

Clery-Reportable Crime Categories

The University’s Clery Act statistical disclosures include the following categories:

- **Primary Criminal Offenses;**
- **VAWA Offenses;**
- **Hate Crimes;**
- **Arrests and Disciplinary Referrals** for Weapons Law Violations, Drug Abuse Violations, and Liquor Law Violations;
- **Hazing;** and
- **Unfounded Crimes**

The categories below are described to help readers understand the statistical tables that follow.

Primary Criminal Offenses

The University reports the following primary criminal offenses when they meet applicable Clery Act reporting requirements:

- Murder and Non-Negligent Manslaughter;
- Manslaughter by Negligence;
- Rape;
- Fondling (Criminal Sexual Contact);
- Incest;
- Statutory Rape;
- Robbery;
- Aggravated Assault;
- Burglary;
- Motor Vehicle Theft; and
- Arson.

VAWA Offenses

The University reports the following Violence Against Women Act (VAWA) offenses when they meet applicable Clery Act reporting requirements:

- Dating Violence;
- Domestic Violence; and
- Stalking.

Hate Crimes

La Salle University reports qualifying Clery offenses that manifest evidence that a victim was intentionally selected because of actual or perceived bias.

In addition to the primary criminal offenses, the following offenses are reportable when determined to be hate crimes:

- Larceny-Theft;
- Simple Assault;
- Intimidation; and
- Destruction/Damage/Vandalism of Property.

Hate crimes are classified, as applicable, according to bias involving race, gender, gender identity, religion, sexual orientation, ethnicity, national origin, or disability.

Arrests and Disciplinary Referrals

La Salle University reports qualifying **arrests** and **referrals for campus disciplinary action** involving:

- Weapons Law Violations;
- Drug Abuse Violations; and
- Liquor Law Violations.

Arrests and disciplinary referrals are reported separately and are presented according to the applicable Clery geographic category in the statistical tables that follow.

Hazing Statistics

Beginning with calendar year 2025, La Salle University compiles statistics for qualifying hazing incidents in accordance with applicable Clery Act requirements.

Hazing statistics are reported separately from the University's **Campus Hazing Transparency Report**. Clery hazing statistics include qualifying hazing incidents occurring within the University's Clery geography and reported to a Campus Security Authority or local law enforcement agency. The Campus Hazing Transparency Report addresses findings of responsibility involving qualifying student organizations.

Because federal collection of hazing statistics began on January 1, 2025, calendar year 2025 is the first reporting year for hazing statistics in La Salle University's Annual Security and Fire Safety Report.

Unfounded Crimes

A reported Clery crime may be classified as **unfounded** only when a sworn or commissioned law-enforcement authority determines, following investigation, that the report is false or baseless and that the reported crime did not occur and was never attempted.

La Salle University reports the number of Clery crimes determined to be unfounded for each applicable calendar year.

Three-Year Crime Statistics — Calendar Years 2023, 2024 and 2025

Pennsylvania Crime Statistics & Crime Rates (PA Act 180)

In addition to the crime statistics disclosed under the federal Clery Act, La Salle University publishes crime statistics and crime rates in accordance with Pennsylvania's College and University Security Information Act and implementing regulations.

Pennsylvania crime rates are calculated based on the applicable crime statistics per 100,000 full-time-equivalent students and employees. Student FTE is based on the number reported through the Commonwealth's applicable annual data collection process. Employee FTE is calculated by adding the number of full-time employees to one-half of the number of regular part-time employees.

The following table presents La Salle University's Pennsylvania crime statistics and corresponding crime rates for calendar years 2023, 2024, and 2025.

Pennsylvania Crime Category	2023 Count	2023 Rate	2024 Count	2024 Rate	2025 Count	2025 Rate
Aggravated Assault	0	0.00	0	0.00	2	51.67
Other Assault	1	22.57	0	0.00	1	25.84
Arson†	0	0.00	0	0.00	0	0.00
Burglary	1	22.57	2	55.33	0	0.00
Disorderly Conduct	5	112.84	2	55.33	5	129.18
Driving Under Influence	0	0.00	0	0.00	0	0.00

FTE Population Used for Rate Calculation

FTE Population	2023	2024	2025
Student FTE	3,733§	3,153	3,285
Full-Time Employees	Not separately reported	491	478
Regular Part-Time Employees	Not separately reported	212	215
Employee FTE*	698§	597	585.50
Total FTE Population	**4,431**	**3,750**	**3,870.50**

Crime Rate = (Crime Count / Total FTE Population) x 100,000.

**Employee FTE = Full-Time Employees + (0.5 x Regular Part-Time Employees).*

† Source note: The 2024 ASFSR contains apparent year-label typographical errors in the Arson and Drug Abuse blocks. The values shown above use the third annual entry in each sequence as the 2023 value: Arson 0 / 0.00 and Drug Abuse 13 / 293.39.

‡ Reconciliation note: The 2024 ASFSR publishes a 2023 TOTAL of 206 / 4,649.06. The displayed 2023 category counts total 188.

§Population note: The 2024 ASFSR reports 3,733 students and 698 non-student employees as actual head counts and identifies 4,431 as the population used for the 2023 rate calculation. It does not provide separate full-time and regular part-time employee counts for 2023.

Annual Fire Safety Report

La Salle University publishes an Annual Fire Safety Report for its on-campus student housing facilities as part of this combined Annual Security and Fire Safety Report. This section provides information regarding residential fire-safety systems, policies and procedures, evacuation practices, fire-safety education and drills, fire reporting, the University Fire Log, and fire statistics for calendar years 2023, 2024, and 2025.

Fire Safety Overview

La Salle University promotes fire safety within on-campus student housing through prevention, detection and suppression systems, emergency procedures, evacuation drills, education, facility maintenance, and coordination among the Department of Public Safety & Emergency Management, Facilities Management, Residence Life & Housing Operations, and the Philadelphia Fire Department.

Fire-safety practices are intended to support the prevention of fires, prompt reporting and response, safe evacuation, and continued maintenance of residential life-safety systems.

On-Campus Student Housing Facilities

The residence halls identified in the **On-Campus Student Housing Facilities** table earlier in this report constitute La Salle University's on-campus student housing inventory for purposes of the fire-safety disclosures contained in this Annual Fire Safety Report.

The same facility names are used throughout the fire-safety systems and fire-statistics tables to support consistent reporting.

Fire Safety Systems in Student Housing

La Salle University's on-campus student housing facilities are equipped with fire protection and life-safety systems based on the design and configuration of each facility. These systems may include fire alarms, monitoring systems, smoke detection, sprinkler protection, portable fire extinguishers, emergency lighting, exit signage, and other fire-safety equipment.

The table below identifies the primary fire protection and life-safety systems installed in each on-campus student housing facility.

RESIDENCE HALL	Fire Alarm	Central Station	Smoke Detection	Sprinkler System
St. Albert Hall	Yes	Yes	Yes	No
St. Basil Court	Yes	Yes	Yes	Yes
St. Bernard Hall	Yes	Yes	Yes	No
St. Cassian Hall	Yes	Yes	Yes	No
St. Denis Hall	Yes	Yes	Yes	No
St. George Hall	Yes	Yes	Yes	No
St. Hilary Hall	Yes	Yes	Yes	No
St. Jerome Hall	Yes	Yes	Yes	No
St. Katherine Hall	Yes	Yes	Yes	No
St. Miguel Townhouses	No	No	*Yes (Local)	No
St. Neumann Hall	Yes	Yes	Yes	Partial

*St. Miguel Townhouses have three interconnected hard-wired smoke detectors per unit. Maximum occupancy is five students per unit. There are smoke detectors in all sleeping areas, with a sound level in excess of 70db at pillow height.

Fire Safety Policies

La Salle University maintains fire-safety requirements for on-campus student housing to reduce fire hazards and promote the safe use of residential facilities. University housing policies regulate activities, equipment, and materials that may create a fire or life-safety risk, including:

- Smoking and related ignition sources;
- Open flames, candles, and incense;
- Cooking appliances and cooking activities;
- Portable heaters and other heat-producing devices;
- Electrical equipment, extension devices, and similar equipment; and
- Other materials or activities that may create a fire, smoke, heat, or ignition hazard.

Residents and guests are expected to comply with applicable Residence Life, housing, and fire-safety requirements. Violations may result in corrective or disciplinary action under applicable University policies.

Students should consult current University housing and Residence Life policies for specific restrictions, permitted appliances, and other residential fire-safety requirements.

Fire Safety in University Housing

Follow applicable housing fire safety requirements. Never disable or tamper with fire alarms, smoke detectors, sprinkler equipment, extinguishers, or other life-safety systems.

Fire Evacuation Procedures

When a fire alarm sounds or occupants are directed to evacuate, individuals should immediately leave the building using the nearest safe exit.

During an evacuation:

- Do not use elevators unless specifically directed by emergency personnel.
- Proceed to a designated safe location or assembly area.
- Follow instructions provided by Public Safety, fire personnel, or other authorized University officials.
- Do not re-enter the building until authorization has been given by Public Safety, the Philadelphia Fire Department, or another responsible official.

IF YOU DISCOVER FIRE OR SMOKE	
1	**Activate the alarm**
2	**Evacuate**
3	**Call 9-1-1**
4	**Notify Public Safety — 215-991-2111**

Fire Drills, Education and Training

La Salle University conducts fire drills in on-campus student housing to familiarize residents and other occupants with evacuation procedures and to evaluate residential emergency preparedness.

During calendar year 2025, La Salle University conducted **7 fire drills** in its on-campus student housing facilities.

Fire-safety education and training may also be provided to residents, Residence Life personnel, Public Safety personnel, and other University employees with responsibilities related to residential fire safety. Training and educational activities may address fire prevention, emergency reporting, evacuation procedures, recognition of alarms, and other applicable fire- and life-safety responsibilities.

Reporting Fires

All fires occurring in University student housing should be reported promptly, including fires that have already been extinguished.

For an active fire or immediate fire emergency:

- Call **9-1-1**; and
- Notify La Salle University Public Safety at **215-991-2111**.

For a fire that has already been extinguished:

Report the incident to Public Safety as soon as possible so the University can determine whether the incident must be documented in the Fire Log and included in annual fire-safety statistics.

Fire Log

La Salle University maintains a written and easily understood **Fire Log** for fires reported in on-campus student housing facilities. The Fire Log records the **nature, date, time, and general location** of each fire.

An entry, or an addition to an existing entry, is made to the Fire Log within **two business days of the University receiving information concerning the fire**, as required by federal regulations.

The Fire Log for the **most recent 60-day period** is available for public inspection during normal business hours. Any portion of the Fire Log older than 60 days is made available within **two business days of a request for public inspection**

Fire Statistics — Calendar Years 2023, 2024 and 2025

The following table presents La Salle University's residential fire statistics for calendar years **2023, 2024, and 2025**. Statistics are reported separately for each on-campus student housing facility and include the number of fires, cause of each fire, fire-related injuries requiring treatment at a medical facility, fire-related deaths, and the value of property damage caused by fire.

RESIDENCE HALL	YEAR	FIRES	CAUSE	INJURIES	FATALITIES	VALUE OF PROPERTY DAMAGE
St. Albert Hall	2023	0	N/A	0	0	$0
	2024	0	N/A	0	0	$0
	2025	0	N/A	0	0	$0

	2025	0	N/A	0	0	$0

Planned Fire Safety Improvements

La Salle University periodically evaluates fire-safety systems, equipment, procedures, and residential facilities to identify maintenance needs, system enhancements, and other opportunities to strengthen fire

and life safety in on-campus student housing. **At the time of publication, La Salle University has no specific planned fire-safety improvements to report for its on-campus student housing facilities.**

Campus Safety Resources & Quick Reference

EMERGENCY & PUBLIC SAFETY CONTACTS

Quick-reference contacts for emergency and non-emergency Public Safety assistance.

RESOURCE	CONTACT
Police / Fire / Medical Emergency	**9-1-1**
La Salle Public Safety Emergency Line	**215-991-2111**
La Salle Public Safety General / Non-Emergency	215-951-1300
Public Safety Email	publicsafety@lasalle.edu
Public Safety Headquarters	St. Mutien Hall, 1825 Lindley Avenue, Philadelphia, PA 19141

For immediate police, fire, or medical emergencies, call 9-1-1 first.

Reporting and Support Resources

La Salle University provides multiple reporting, support, and assistance resources. The appropriate resource depends on the nature and urgency of the concern. The table below provides a quick reference; additional information and reporting options are provided throughout this report and in applicable University policies.

NEED OR CONCERN	WHERE TO START
Immediate threat, crime in progress, fire, or medical emergency	**9-1-1 and La Salle Public Safety — 215-991-2111**
Crime or non-emergency campus safety concern	La Salle Public Safety — 215-951-1300
Sexual misconduct, dating violence, domestic violence, or stalking	Title IX reporting resources and Public Safety, as appropriate
Confidential counseling or support	University confidential resources identified in the Sexual Misconduct section
Medical care	Student Health or appropriate emergency/community medical services
Student behavioral or welfare concern	Appropriate student support or behavioral-concern reporting process
Employee assistance or workplace concern	Human Resources and/or Employee Assistance Program, as appropriate
Student conduct matter	Student Conduct
Residence Life or housing concern	Residence Life & Housing Operations
Hazing concern	Public Safety, Residence Life/Community Development, Student Conduct, or the University's online incident-reporting process
Emergency preparedness information	Department of Public Safety & Emergency Management

For immediate threats or emergencies, call 9-1-1 and La Salle Public Safety at 215-991-2111.

Important Policies and Resources

The policies and resources below provide additional information concerning University safety requirements, reporting procedures, student and employee responsibilities, and available support. Current versions of applicable University policies should be consulted for complete requirements and procedures.

- Student Code of Conduct
- Student Guide to Resources, Rights, and Responsibility
- Student Title IX Policy and Grievance Procedures
- Employee Title IX Policy and Grievance Procedures
- Sexual Misconduct and Interpersonal Violence Policy Involving Students
- Anti-Harassment and Non-Discrimination Policy
- Alcohol and Drug Policies
- Policy Against Hazing
- Campus Hazing Transparency Report
- Residence Life and Housing Policies
- Parking and Transportation Regulations

Where a summary contained in this Annual Security and Fire Safety Report differs from the controlling University policy, the current University policy governs.

Annual Security & Fire Safety Report Availability

La Salle University publishes its Annual Security and Fire Safety Report annually on or before **October 1** in accordance with applicable federal requirements.

The report contains information concerning campus crime statistics, Clery Act reporting and security policies, Timely Warnings and Emergency Notifications, emergency response and evacuation procedures, crime prevention and security awareness programs, sexual assault and interpersonal violence policies and resources, hazing prevention and reporting, on-campus student housing fire-safety policies, fire statistics, and other campus safety information.

Current students and employees are notified annually of the report's availability and provided with the **exact electronic address** where the report may be accessed.

Prospective students and prospective employees are also provided notice of the report's availability through applicable admissions and employment processes and may request a copy of the report.

A paper copy of the Annual Security and Fire Safety Report is available upon request from the Department of Public Safety & Emergency Management or can be accessed online at https://www.lasalle.edu/public-safety/annual-security-and-fire-safety-report/
