PINTS of BLOOD were collected at the La Salle University

♥ 2006 Spring BLOOD DRIVE ♥

This was one of our most successful BLOOD DRIVE's yet!!

Thanks to the students from the Peer Educators and the Student Nursing Association who provided volunteer support for the blood drive itself. The success of the drive can be attributed to the wonderful collaboration between several groups who worked together to recruit donors and provide other support for this important event: Health Advisory Committee, Peer Educators, SNAP, SGA, Gamma Sigma Sigma, IFSC and the Counseling Center Administrative staff and work study students.
Health Tip of the Month

Rude Awakening: Manners Matter!!

- Is common courtesy disappearing on our campus??
- If you answered yes, you are not alone.
- Many persons on campus report that we are acting angrier and less polite than ever.
- Please use *please, thank you, and you’re welcome* more frequently and don’t forget the Golden Rule.
- A less angry environment generates less stress and is healthier!

March 31, 2006

Present: Co chairs: Lane B. Neubauer & Dina Cleoakiak; Members: Andrew Beverly, Anne Bullard, Marie Cantwell, Luis Gomez, Tina Lumbia, Angie Marfisi, MaryAnne Peters, Rejeanne Richard
Absent: Chris McKeever, Mary Elen Miller, Scott Tajarain

I. Health Fair
   a. Committee members volunteered to set up, clean up and staff the Health Fair.
   b. Marketing strategies were confirmed.
   c. A wide variety of topics, health screenings, demonstrations and services (i.e. massage therapists) are lined up for the Fair.

II. Smoking Issues
   a. Mike Gilbert brought a list of where all the ashtrays are located, thus identifying ashtrays that are at entrances to buildings.
   b. Discussion about the feasibility of moving the ashtrays away from the doorways; several committee members noted that when the ashtrays are moved, smoking continues to occur at the doorway but the butts are dropped on the ground.
   c. It was decided that instead of moving the ashtrays, the initial approach the Health Advisory Committee will take is to try to raise awareness of issues of courtesy between smokers and non-smokers regarding second hand smoke (see Health Tip of the Month – April).
   d. No progress has been made on getting ‘no-smoking’ signs up on doors to buildings.

III. University-wide Walking Initiative
   a. The Health Advisory Committee in conjunction with Athletics and Campus Recreation is organizing a university-wide walk to be held on the track to support the HAC’s goal of increasing physical activity within the University Community.
   b. Tentative date for the ‘Kick-Off’ is Weds. April 12 from 1:00 – 2:00; Prizes and other incentives will be available.
   c. If successful, attempts will be made to make this a regular weekly event.

IV. MRSA Update
   a. Some new cases of MRSA have resurfaced.
   b. The signs informing students about the importance of disinfecting laundry machines have been completed and will be mounted on the sanitizing dispensers in the laundry rooms.
   c. Continuing education about good hygiene is necessary to break the MRSA cycle.

V. Avian Flu
   a. The Student Health Center has been keeping abreast of the latest developments regarding the Avian Flu. They have proactively developed a draft for a strategic plan in the event of the Avian Flu becoming a health crisis in this country.
   b. Thus far, no human cases have been reported in the US but it has been strongly recommended that Universities have plans in place in the event that the flu crosses from birds to animals to humans.
   c. The Student Health Center has ordered supplies to have in stock to deal with the potential of an Avian Flu epidemic.
   d. The President’s team will be appointing a committee of essential personnel to further proactively discuss this issue.

VI. Bed Bugs – Prevention and Education
   a. A committee member discussed whether we should be educating our students on bedbugs even though this has not been an issue at La Salle as it has been in the news in other environments.
   b. The committee decided to take an educational approach to this issue. It identified high risk populations on campus i.e. athletes since they are traveling and staying in hotels, study abroad students, international students, etc. and contact persons for each of these groups.
   c. Mike Gilbert volunteered to write a prevention fact sheet about bedbugs that can be distributed to these high risk groups.
   d. Student Health will do ‘john journals’ with educational and prevention information.

VII. Air Quality – Olney Hall
   a. The inspection that was conducted by Synertech Environmental Consulting was reviewed by the committee. At the time of the report, no problems with air quality were identified in Olney Hall.
   b. According to the report, “no obvious suspect sources of environmental contaminants were identified including any air quality problems related to the presence of fungal growth… the direct-read measurements showed CO2, CO, temperature and relative humidity readings were all generally within recommended ranges”.
   c. Recommendations were related to temperature control issues and perceived lack of ventilation.

VIII. Next meeting has been changed to April 21, 11 a.m. in the Counseling Center Conference room.

Respectfully submitted: Lane B. Neubauer Ph.D.
