“La Salle University’s expansion and development projects are bringing exciting changes to our Northwest Philadelphia campus.

“Here at La Salle, we are investing more than $50 million in our facilities to enhance the quality of life on campus and contribute to the ways that our students and faculty live and learn together.

“Construction of state-of-the-art classrooms, labs, and gathering spaces for our expanded School of Nursing and Health Sciences is nearing completion.

“The groundbreaking for ‘The Shoppes at La Salle’—our campus shopping center—has everyone anticipating the convenience of the Fresh Grocer supermarket, Starbucks, GameStop, and other stores.

“Next up: a brand-new science and technology facility, which will be home to the Hugh and Nancy Devlin Center for Science and Technology, a high-tech complement to our top-notch faculty.

“It’s a good feeling to be a part of a dynamic community that is making constructive changes for its students, faculty, staff, alumni, and neighbors.”
