Is your institution a member of an HEA Title II Teacher Quality	Partnership (TQP) grant awarded by the U.S. Department of Education?

If yes, provide the following:
AWARD YEAR
GRANTEE NAME
PROJECT NAME
GRANT NUMBER
LIST PARTNER DISTRICTS/LEAS (ONE PER LINE)
LIST OTHER PARTNERS (ONE PER LINE)
PROJECT TYPE
Residency Pre-baccalaureate
Both Residency and Pre-baccalaureate

SECTION I: PROGRAM INFORMATION

List of Programs

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

'LIIC	$D\Lambda$	\cap E	INICI	UDFS:

>> Program Information

Program Information

List each teacher preparation program included in your alternative, ihe-based route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at https://www2.ed.gov/programs/tqpartnership/awards.html.

Teacher Preparation Programs	Teacher Quality Partnership Grant Member?	Update
Early Elementary Education Pre-K to 4	No	
Middle Level Math and Science	No	
Secondary Education 7 to 12	No	
Special Education 7 to 12	No	
Special Education Pre-K to 8	No	

Total number of teacher preparation programs: 5

Program Requirements

On this page, review and enter information about the program requirements for admission into the program, program completion, and supervised clinical experience. If you submitted an IPRC last year, much of this page is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to specify the requirements in the appropriate reports. For the traditional report, provide the requirements for traditional programs within the IHE. For the alternative report, provide the requirements for the alternative programs within the IHE.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> Admissions
- >> Undergraduate Requirements
- >> Postgraduate Requirements
- >> Supervised Clinical Experience

Admissions

1. Indicate when students are formally admitted into your initial teacher certification program:

Postgraduate

•

If Other, please specify:

- 2. Does your initial teacher certification program conditionally admit students?
 - Yes
 - No
- 3. Provide a link to your website where additional information about admissions requirements can be found:

http://www.lasalle.edu/graded

4. Please provide any additional information about or exceptions to the admissions information provided above:

Admission process is the same for all graduate degree programming. We allow conditional admits for graduate students when application conditions warrant (borderline scores or missing information).

Undergraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

- 1. Are there initial teacher certification programs at the undergraduate level?
 - Yes
 - No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the rest of the page blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

6. Please provide any additional information about the information provided above:

Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2017-18. (§205(a)(1)(C)(iii), §205(a)(1)(C)(iv))

Additional guidance on reporting supervised clinical experience and nonclinical coursework.

Average number of clock hours of supervised clinical experience required prior to student teaching	230
Average number of clock hours required for student teaching	360
Average number of clock hours required for mentoring/induction support	60
Number of full-time equivalent faculty supervising clinical experience during this academic year	1
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	1
Number of students in supervised clinical experience during this academic year	2

Please provide any additional information about or descriptions of the supervised clinical experiences:

Students enrolled in our Post Bacc Programs are required to have supervised clinical experiences in their coursework. Students in all of the certification programs are required to complete a summer practicum with 3 weeks of daily supervised instruction of appropriate levels of prek-12 students. Intern Certification program students are already in the classroom as a teacher of record. They are mentored while taking the coursework at the university. During a 'supervised teaching' semester they are assigned a university supervisor who provides mentoring/induction support for a full semester.

Enrollment

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:	
>> Enrollment	

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2017-18	2
Unduplicated number of males enrolled in 2017-18	1
Unduplicated number of females enrolled in 2017-18	1

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. (§205(a)(1)(C)(ii)(H))

2017-18	Number Enrolled
Ethnicity	
Hispanic/Latino of any race	0
Race	

2017-18	Number Enrolled
American Indian or Alaska Native	0
Asian	0
Black or African American	0
Native Hawaiian or Other Pacific Islander	0
White	2
Two or more races	0

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Additional guidance on reporting teachers prepared by subject area.

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2017-18. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education-Chemistry" category.

Additional guidance on reporting teachers prepared by academic major.

What are CIP Codes?

No teachers prepared in academic year 2017-18

SECTION I: PROGRAM INFORMATION

Program Completers

On this page, enter the total number of individuals who completed the program in AY 2017-18 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

THIS	S PAGE INCLUDES:		
>>	Program Completers		

Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years.

2017-18	0
2016-17	2
2015-16	1

Annual Goals

On this page, review the annual goals in each subject area listed below. If you submitted an IPRC last year, the goals you entered last year are pre-loaded from your prior year's report. Please respond to the questions to report on progress towards the goals, and set new goals for the next academic year.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> Annual Goals Science
- >> Annual Goals Special Education
- >> Annual Goals Instruction of Limited English
 Proficient Students
- >> Assurances

Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(iii), §206(a))

Information about teacher shortage areas can be found at https://www2.ed.gov/about/offices/list/ope/pol/tsa.html.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2017-18

- 1. Did your program prepare teachers in mathematics in 2017-18?
 - Yes
 - No (leave remaining questions for year blank)
- 2. How many prospective teachers did your program plan to add in mathematics in 2017-18?

2

- 3. Did your program meet the goal for prospective teachers set in mathematics in 2017-18?
 - Yes
 - No
 - Not applicable
- 4. Description of strategies used to achieve goal, if applicable:

We promote our Annenberg Scholarship to prospective students to assist with tuition costs as well as other financial aid options to increase our enrollment for our STEM programs.

- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
- 6. Provide any additional comments, exceptions and explanations below:

We now offer post bacc certification programs without a degree option to help those prospective teachers become certified sooner. Additionally with the

Annenberg-Henrich scholarship available to graduate students it is an incentive to help offset tuition costs.

Academic year 2018-19

7. Is your program preparing teachers in mathematics in 2018-19?

Yes

No (leave remaining questions for year blank)

8. How many prospective teachers did your program plan to add in mathematics in 2018-19?

2

9. Provide any additional comments, exceptions and explanations below:

Academic year 2019-20

10. Will your program prepare teachers in mathematics in 2019-20?

Yes

No (leave remaining questions for year blank)

11. How many prospective teachers does your program plan to add in mathematics in 2019-20?

3

12. Provide any additional comments, exceptions and explanations below:

We now have a 5 year NOYCE Scholars program to help promote new Math & Science teachers to teach in high needs areas. We offer a 1 year program to prepare teachers with backgrounds in Math & Science and offer substantial scholarship money to help offset tuition dollars. Also, these same teachers can also apply for our Annenberg Scholarship Program as well.

Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at https://www2.ed.gov/about/offices/list/ope/pol/tsa.html.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Academic year 2017-18

1. Did your program prepare teachers in science in 2017-18?

Yes

No (leave remaining questions for year blank)

2. How many prospective teachers did your program plan to add in science in 2017-18?

2. Did your many reset the goal for many setting to show set in salars in 2047, 402
3. Did your program meet the goal for prospective teachers set in science in 2017-18? Yes
No
Not applicable
4. Description of strategies used to achieve goal, if applicable:
Promotion of our Annenberg Scholarship program to recruit STEM teachers.
5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
6. Provide any additional comments, exceptions and explanations below:
We have approval to extend our Annenberg-Henrich scholarship for math/science secondary education to middle level certification programs, and into a post bacc certification program. We do marketing internally. We now offer post bacc certification programs without a degree option to help those prospective teachers become certified sooner.
Academic year 2018-19 7. Is your program preparing teachers in science in 2018-19? Yes No (leave remaining questions for year blank)
3. How many prospective teachers did your program plan to add in science in 2018-19?
3
9. Provide any additional comments, exceptions and explanations below:
Academic year 2019-20
10. Will your program prepare teachers in science in 2019-20?
Yes No (leave remaining questions for year blank)
11. How many prospective teachers does your program plan to add in science in 2019-20?
3
12. Provide any additional comments, exceptions and explanations below:
Our new 5 year NOYCE Scholars program is to recruit at least 3 new teachers in STEM a year for the next 5 years.

Annual Goals - Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at https://www2.ed.gov/about/offices/list/ope/pol/tsa.html .
Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.
Academic year 2017-18
Did your program prepare teachers in special education in 2017-18? Yes No (leave remaining questions for year blank)
2. How many prospective teachers did your program plan to add in special education in 2017-18?
5
3. Did your program meet the goal for prospective teachers set in special education in 2017-18? Yes No Not applicable
4. Description of strategies used to achieve goal, if applicable:
5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
6. Provide any additional comments, exceptions and explanations below:
A small number of special education certified candidates taking the alternative program is more reasonable, given that most teachers are choosing to come through the traditional certification program or adding on special education certification.
Academic year 2018-19
7. Is your program preparing teachers in special education in 2018-19?
Yes No (leave remaining questions for year blank)

8. How many prospective teachers did your program plan to add in special education in 2018-19?

9. Provide any additional comments, exceptions and explanations below:

5

10. Will your program prepare teachers in special education in 2019-20?
Yes No (leave remaining questions for year blank)
11. How many prospective teachers does your program plan to add in special education in 2019-20?
5
42 Provide any additional comments, exceptions and explanations below:
12. Provide any additional comments, exceptions and explanations below: PDE is changing the requirements for Special Ed in 2022 to Pk-12. We are working towards modifying our programs to meet the new requirements for
Special Ed which also does not require a content area for initial certification.
Annual Goals - Instruction of Limited English Proficient Students
Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing
professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the
Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.
(§205(a)(1)(A)(ii), §206(a))
Information about teacher shortage areas can be found at https://www2.ed.gov/about/offices/list/ope/pol/tsa.html .
Please provide the information below about your program's goals to increase the number of prospective teachers in instruction of limited English proficient students in each of three academic years.
Academic year 2017-18
1. Did your program prepare teachers in instruction of limited English proficient students in 2017-18?
Yes
No (leave remaining questions for year blank)
2. How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2017-18?
3. Did your program meet the goal for prospective teachers set in instruction of limited English proficient students in 2017-18?
Yes
No No
Not applicable
4. Description of strategies used to achieve goal, if applicable:

Provide the following information about the approval or accreditation of	f your teacher preparation program. <u>(§205(a)(1)(D), §205(a)(1)(E))</u>
--	---

1. Is your teacher preparation program currently approved or accredited?
--

Yes

No

If yes, please specify the organization(s) that approved or accredited your program:

✓ State

NCATE

TEAC

CAEP

Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

Yes

No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

TH	IS PAGE INCLUDES:	
>>	Use of Technology	

Use of Technology

1.	Provide the following information about the use of technology in your teacher preparation program. Please note that choosing	'yes' indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))	

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Ye
 - No
- b. use technology effectively to collect data to improve teaching and learning
 - Ye
 - No
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
 - No
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
 - No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All of our programs have specific coursework embedded with the integration of technology. For example, students create webquests, develop website wikis, create and use canvas interactive discussion forums, and are encouraged to learn and use new technologies for presentations such as smart notebook, voice thread, Prezi, Glogster, etc. EDC602 focuses on Educational Technology tools for teachers and student learning. We require the analysis and use of technology during supervised field experiences. The students in the special education certification program use case studies where they analyze Terra Nova and PSSA scores, determine accommodations for students including universal design principles via an Assistive Technology webquest. The secondary education program is based on the integration of product and idea technologies. The secondary certification program also includes a course specifically on Educational Technology (EDC602). The Department of Education created databases and a website to effectively manage data to improve teaching and learning. Individual faculty use canvas, a variety of software programs, gotomeeting, skype, smartboards, electronic gradebooks, etc. The Department of Education discontinued an electronic database management system for field and student teaching, called the Experiential Learning Website. We are working with the registrar's office and IT to integrate our database (testing and candidacy) with the university banner database. The Department of Education Assessment Plan includes electronic portfolios and a triangulated data analysis to improve teaching and learning. We began this in fall 2014 for graduate students.

SECTION VI: TEACHER TRAINING

Teacher Training

On this page, review the questions about how your program trains general education teachers and special education teachers. For the purposes of these questions, general education teachers means those who are not specifically prepared as special education teachers. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:	
>> <u>Teacher Training</u>	

Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(G))

- 1. Does your program prepare general education teachers to:
 - a. teach students with disabilities effectively
 - Yes
 - No
 - b. participate as a member of individualized education program teams
 - Yes
 - No
 - c. teach students who are limited English proficient effectively
 - Ye
 - No
- 2. Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

The education programs are integrated by design to ensure that all teacher candidates are prepared to be teachers of all students. From a general education perspective, students are exposed to a general understanding of students with disabilities through an introductory course, EDC 510. This course provides students with an understanding of a wide range of student diversity, mainly focusing on culture and disability types. Since our early elementary and middle level programs are dual certification (general and special education), students also experience the same coursework as students interested in pursuing positions in special education. For example students enrolled in EDC 613, 643, and 644 focus on understanding how to adapt and accommodate instruction to meet the needs of all learners - gifted, average, ELL, and students with special needs. In EDC 613 for example, students write a unit of instruction, administer pre-tests to gauge student understanding of the content, and use Tomlinson's differentiated instruction model to adjust lessons prior to teaching. In EDC 643 and 644 students administer a variety of tests (norm-referenced, criterion-referenced, authentic, and curriculum-based) to a student with a disability. Based on the assessment outcomes, students write a unit of instruction focused on need areas and develop progress monitoring assessments to measure student growth over time. Students are also exposed to IEP writing, Functional Behavioral Assessments, transition planning, and Section 504 plans in this course. All teacher candidates have a culminating practicum/student teaching experiences in which they are required to apply concepts learned to the classroom. With regard to experiences related to students with English Language learning needs, students take a three-credit course (BLS 601) which provides them with the content and understandings needed to work effectively with this group of students. In the graduate program this is followed by readings and discussions on cultural differences leading to reflections on how to design a UDL classroom to accommodate all learners in EDC 667. The required inclusion practicum experience also exposes candidates to students from diverse cultures where they have the opportunity to apply concepts learned in their coursework in the field.

3. Does y	our program prepare special education teachers to:			
a. teach students with disabilities effectively				
_ N	res No Program does not prepare special education teachers			
b. parti	cipate as a member of individualized education program teams			
•	res No Program does not prepare special education teachers			
c. teac	h students who are limited English proficient effectively			
•	res No Program does not prepare special education teachers			
	rogram does not propare special education teachers			

4. Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

The education programs are integrated by design to ensure that all teacher candidates are prepared to be teachers of all students. SECTION VII: CONTEXTUAL INFORMATION

Contextual Information

On this page, review the contextual information about your program. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THI	IS PAGE INCLUDES:
>>	Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Our Teacher Intern Program is our Alternative Program at the graduate (post-bac) level. The coursework for those students seeking an Intern certification typically takes 1 year and then students apply for the certification. The students then continue in the program to finish all required coursework for their initial teacher license however they are still considered "alternative" program seekers because of the PA Teacher Intern Program. We saw a decline in 2017-18 for enrollment however with new partnerships forming with area districts to train and certify new teachers, our enrollment for our Alternative program is likely to increase over the next few years.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.
